June 22nd, 1995

Dear [REDACTED]

I spoke to Steven Greer and he was delighted that you had enjoyed the papers which he sent you and feels that your interest and commitment to the CSETI project is an integral part of the success of many of its future projects. Although I have not seen the papers which he sent you, I believe that they were the same ones that were dispatched to President Clinton and some of the members of his cabinet.

We can consider the recent meeting a great success and a strong beginning. It was well attended and accomplished many goals. There is however, a long and possibly tricky road before us. Most important however, is having your interest and commitment and, possibly that of others who like yourself, have a more than cursory interest in the subject and, are actively engaged in the political and military arenas of the world.

I have written today to [REDACTED] to send her our congratulations for the success of her campaign and her election as a Senator to the European Parliament.

Again thank you so very much for your most generously offered and gratefully accepted "vote of support". We will keep you abreast of all plans which I hope will include the occasional lunch with the "NY Team" - and maybe a few other very select members...

Always Sincerely,

[REDACTED]
