Thanks, [REDACTED] certainly knows who I am. [REDACTED] and I had a private dinner (job interview) with him near Cambridge around 1986. [REDACTED] did not wish to live in the USA, so we came here instead in 1987.

Perhaps you can ask [REDACTED] to review the recent [REDACTED] paper? Since he wrote "Molecular biology of the Gene" and taught at Harvard?

There is a "time travel" element involved with "crop circles" and "UFOs", where other advanced races are using small "butterfly effects" to change time and history.

Often they carry out amusing surprises like for [REDACTED] and her UFO encounter in 2009 <https://genius.com/Kim-wilde-1969-lyrics> or <https://www.express.co.uk/showbiz/tv-radio/930604/Loose-Women-Kim-Wilde-UFO-alien-2018-Ruth-Langsford-Joey-Essex-extra-terrestrial>

So when you say "what are the chances", perhaps "chance" had nothing to do with it?

Good luck, red [REDACTED] in Sydney
