Dear Steve,

Warm greetings from India!

Thank you for meeting us in April and spending so much time to answer our questions! The work that you are doing is unprecedented and singularly important for the future of humanity. But more than anything else, it is the spiritual foundation on which your work is based that makes it so special and make it possible for things to move they have. I deeply respect and value that.

1) Meetings in India. Following up on our discussion, I met with friends in New Delhi and shared with them some of your books. Based on my discussion with them, it appears that the following meetings are possible:

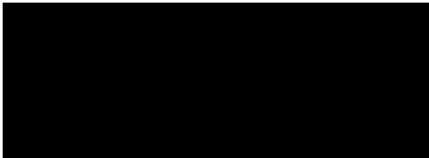

- a. Meeting with the Prime Minister of India on matter of new energy technologies and related issues.
- b. Meeting with the Defence Minister of India. This can cover all issues, and can be as long as needed. He has an engineering background and is keen on new technologies.
- c. Meeting with a select group of senior members of the Indian military, including in-service and retired Generals and Admirals. This can optionally include senior influential persons from the Government, including select Central Ministers and politicians.

Since (a) and (b) are one-on-one meetings, they can be arranged at relatively short notice. But (c) will involve a much longer and difficult preparation with preliminary briefings and preparatory presentations necessary on my end.

Please let me know what interests you and how you suggest we go about this. The timetable and run-up to the meetings is in your hands.

As discussed, for the preparatory work for (c), it will be very helpful to have some of your books as briefing documents. In particular, it will be helpful to have 5 copies each of the "Disclosure" book, the "Disclosure DVD", and the "Hidden Truth - Forbidden Knowledge" along with any other material that you would recommend. I would request you to arrange to send them to my postal address at:

2) CE-5 Groups in India. As summarised in a previous email, three CE-5 groups have sprung up in India and are slowly growing through social media. They are now better documenting their experiences. I expect to give you some interesting photographs and recordings in our next meeting.

3) Meeting and Publicity in the USA. Dena is working on a possible meeting with religious and spiritual leaders in the USA through the Global Peach Initiative of Women (www.gpiw.org) which she heads.

Please let us know as and when you would like to publish one or more articles in the Huffington Post.

4) Miscellaneous information. In our conversation, there were several miscellaneous bits of information that you showed special interest in and asked me to send links and updates on. I am compiling these and will send them by a separate email.

5) Follow-up meeting. I will be visiting the USA from June 22 to July 4. I wonder if it will be possible to meet you again on any date between June 30 and July 3. I remember you had said you will spend your birthday in Crestone. In case you are back before I leave, it will be useful to meet. Do please let me know.

Please convey my greetings to 

With warm regards.
