Dear [REDACTED]

Below is a mail from my colleague in India reporting on recent CE-5 events and groups in India. Please forward this to Dr Greer so that we can discuss it when we meet.

Warm regards.

Dear [REDACTED]

This is great news !

Actually it is 2 weeks now that I'm telling myself that I have to write to you because things have evolved here also, things who might be of some interest to share also with Dr. Greer.

1/ Through Dr. Greer's website : [REDACTED] I have contacted a CE-5 group in Bangalore. They already did a first event in January 3, 2015, they were 3 people.
They will renewed their event on the weekend of May 2 & 3, 2015 : CE-5 meditations protocols from Dr. Greer + seminar during the days.
6 persons have already booked and I'm one of them ;-)

<https://www.facebook.com/pages/CE5-Working-Group-Bangalore-India-inspired-by-Dr-Steven-M-Greer/738638406213561>

Their first report is in attachment.

2/ The contacts with this group has led me to connect with other people from India and a group - brand new also - seems very interesting : ICSETI

Indian center for the study of extraterrestrial intelligence.

ICSETI is a visionary group of aware people working peacefully towards possibility of extraterrestrial and inter dimensional life forms ,phenomenon and science related to it.Our efforts is towards creating universal awareness,peace,harmony among ourselves so that we can all come together and explore different ways for the betterment of our planet ,our life (like free energy,proper use of resources using science to elevate our lifestyle and creating a more civilized society).

for this purpose we are running three projects:

1. Rigel Project : We are coming forward to aware,educate people at the same time creating a platform where people come forward with their queries ,experiences,knowledge and support us in the initiative.
2. Zenith Project : This project is completely focused in betterment of our planet and people.We want to explore the concept of free energy, applications and share it with people by providing them a platform so that they can come with their ideas, join with us and help others with resources to create a peaceful society.
3. Altair Project : It is a platform where people can come forward and be a part of our CE5 (Close encounter of the fifth kind) expedition where we try and successfully contact with extraterrestrial and inter dimensional life forms and to witness this phenomenon them-self .This initiative is very necessary for those who do not believe in this concept yet, so that they can come forward to track and record these events(phenomena) with us.

For more information attend our Rigel project event .

This is a non-profitable group where we peacefully make our efforts towards a better tomorrow ,so do come and be a part of it.We need your support.

<https://www.facebook.com/groups/1566189386990800/>

It is a group connected through Facebook with around 150 members created in March 2015 (this month).

What makes this group especially interesting is that a least one of the founder of the group (living in Bhilai, Chhattisgarh) has for the last 3 months daily sightings on his rooftop. Every night he has with his friend 2 or 3 contacts : ball glowing with all the lights of the spectrum, all electronic equipment stops working for a few minutes even the laser pointer, dogs and bats going crazy, red scorpion craft at a few hundreds meters, the craft respond with same pattern of lights when he uses his laser pointer towards them, a few days ago he had the feeling that a craft was trying to land and there were helicopters all around the area but nothing in the newspaper, they have headaches all the time he thinks due to the electromagnetics, a craft once came so close of the house that the roof shook like it was an earthquake, ...

Another amazing incident : a member from CE-5 Bangalore (she) and he discussed 10 days ago on Skype, she told him to invite his daily "contacts" (from Bhilai) to come to see her in Bangalore the next night, she will be on her rooftop doing a meditation. The following night, while be on his rooftop he just thought : "You should go and see Rathi in Bangalore" and she saw lights in the sky that night for the first time. They both explained together to us this incident in a Skype group discussion in which I participate a few days ago.

He is an engineer (in his twenties) and with his friend also engineer he wants to create a device able to track the crafts when they disappear from sight.

I know all this because I participate in this Skype group discussion, we were 6 people from Bangalore, Bhilai, New Dehli and Auroville.

I feel that they are authentic.

In attachment 3 pictures and 3 movies he sent to us through "Whatsapp" and also one picture (named "Bhilai Jan 5 2015 pictures") put by his friend on Facebook with this description :

"January 5,2015 the day we had our first sighting , this was due 180' south. This object was emitting lights of visible spectrum (VIBGYOR) . It wasn't still , it was actually floating in an elliptical path . After 30 minutes or so a craft came in front of the object. it was in its direction and was approaching it . We thought they might collide but they didn't . Suddenly

the object went straight up in the sky for some distance and when the craft passed it it came back to its original position and started moving there.

Place :- BHILAI

Time :- 11:30PM"

It seems that in Pune some of his friends has also daily contacts.

I'm amaze by the quality of these people from Bangalore, Bhilai, Delhi,... they are very open minded, heartfelt, intelligent sometimes clearly spiritual... and very much in tune with the approach of Dr. Greer, some spontaneously.

This Saturday April 4, 2015 they organize a new "Project Rigel" Skype group discussion at 7 pm.

3/ Since I'm going to Belgium from the 6th to the 26th of May, I have also contacted the group CE-5 Belgium - The Netherlands :

<https://www.facebook.com/groups/ce5nl/>

<http://www.ce5.be/>

They probably will organize a CE-5 event on May 16, totally in line with the approach of Dr. Greer, and I will join ;-)

I had a contact with 3 of their core members and they told me that at each event they had contacts.

In attachment 4 of their reports.

4/ I still continue my own CE-5 meditations on almost a daily basis, but so far only 2 shooting stars in the sky...

If you feel that a little chat on Skype can be of some use, send me an sms or call me on my mobile, I'm pretty available.

Say hello to [REDACTED] for me, joyfully, [REDACTED]

2015-04-01 8:58 GMT+05:30 [REDACTED] [REDACTED]:

Dear [REDACTED]

You will be happy to know that [REDACTED] d I are confirmed to meet Dr Greer on 3rd April afternoon.

Please let me know if you wish to convey anything to him in particular. Or if you want me to bring something from here.

With love,

[REDACTED]
