Subject: Stanford University (Researching) Several Sources!
To: [REDACTED] <[REDACTED]>, Steven Greer <[REDACTED]>

Hello,

It was nice seeing both of you today! □ I've been taking a look over Stanford's website and checking out what we discussed at Whole Foods. Below is research I've done on Misconduct, directories/contacts, and research policies.

Firstly, I thought it was a bit comical/ridiculous that Stanford made baseless claims of the Atacama skeleton being purely caused by bone disease, especially understanding the DNA oxidation process from exposure to elements. On top of this, it's on the front page of Stanford right now if you scroll down their **main home page** to mid page, "Latest news from Stanford".

1. Main home page:

- <https://www.stanford.edu/>

2. Here's the link to the main Atacama article as well of course:

- <http://med.stanford.edu/news/all-news/2018/03/mysterious-skeleton-shows-molecular-complexity-of-bone-diseases.html>

3. Stanford's General Counsel:

- <https://ogc.stanford.edu/>

4. Director of Legal Services:

- <https://ogc.stanford.edu/people/director-legal-services>

5. Big-wig names and contact information (Directory):

- <https://ogc.stanford.edu/people/attorney-directory/grid>

Media Contacts:

- [REDACTED] el [REDACTED]
- [REDACTED] Tel [REDACTED]

6. **MISCONDUCT** Page: <https://adminguide.stanford.edu/category/misconduct>

Reporting Suspected Violations:

- For further information regarding this Policy, contact the [Office of the General Counsel](#) (11) or the Office of International Affairs (). Known or suspected violations of this guide memo must be reported to the [Compliance & Ethics Helpline](#) or [du](#) or to the Office of the General Counsel.

b. Consequences

Violations of this guide memo could result in criminal or civil penalties against both the University and involved individuals in the United States and abroad. Some countries take broad jurisdiction over bribery and corruption offenses, so violations in one country could result in extradition to and prosecution in another country. Violations of this Policy could also result in appropriate disciplinary action up to and including termination from employment or other relationships with the University.

c. Non-Retaliation Policy

The University is committed to ensuring that members of the Stanford community can speak up with confidence if they have any concerns or need to ask for guidance. If any person suspects or observes anything that they believe might be a violation of this guide memo, they are obligated to report it and cooperate in any investigation if requested. Stanford will not tolerate retaliation against any person who makes a good faith report or participates in an investigation of a suspected violation.

7. **Research Misconduct: Policy on Allegations, Investigations, and Reporting** (Number 8 down the page might be useful):

- <https://doresearch.stanford.edu/policies/research-policy-handbook/conduct-research/research-misconduct-policy-allegations-investigations-and-reporting>

8. **Principles Concerning Research:**

- <https://doresearch.stanford.edu/policies/research-policy-handbook/conduct-research/principles-concerning-research>

9. **Conduct of Research Policies:**

- <https://doresearch.stanford.edu/policies/research-policy-handbook/conduct-research>

Let me know if I can look anywhere else or if you have any other thoughts I can hone in on for research.

Best,
