

Sir :

There exist a new form of energy I call C^2 .

(1) normal radio, tv, heat, ect

With C^2 the signal can go across the universe instantly. time has vanished.

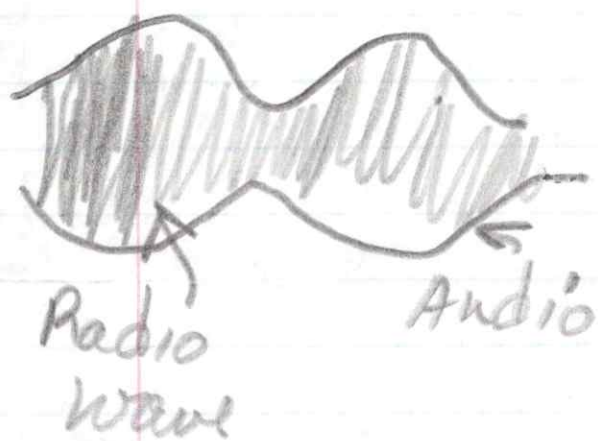

C^2 energy exists at the Singularity of a Black Hole, or at the center of an atomic blast.

It would carry voice modulation between stars instantly.

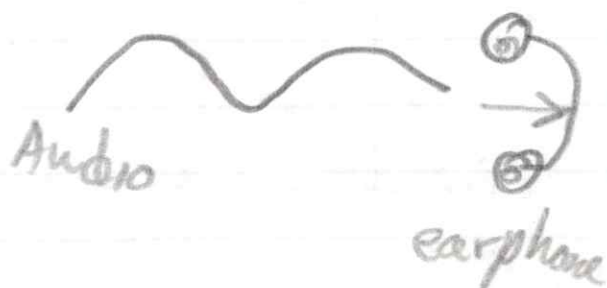

You cannot detect C^2 with normal Radio circuits.

You can trap the information impressed on C^2 .

normal Audio Modulation

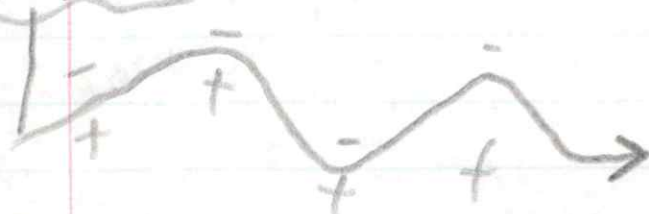

demodulation

C^2

no time

output
