report

is coming -

[REDACTED]'s daughter lives in Calgary, not Seattle that I know of, "on the other side of town". He still might be willing to fly down to Seattle though. I had a great 45 minute talk with him yesterday. Very willing to be interviewed and quite knowledgeable about UFO issues. His cell phone is the only way to connect to him and it is [REDACTED]. I will send you a report, but it won't be for a few days as I am in the middle of moving and life is stressed. He was in the Canadian AirForce as an electronics and communications instructor when he was at the Inst. of Aviation Medicine when he witnessed the dematerialization and rematerialization of an ashtray into the next room. He is also checking with some friends to see if he can put us in contact with some others. He has witnessed a number of landing sites but said he never saw a craft.
