Re: tuesday

Hope the flight went well and that you are happy and comfortable at home. I really enjoyed the time we had and it looks like good and important things will come out of your efforts here.

Following is a copy of a note for Jeff Rense and for you. I wanted you to know..this is an object that needs to be tested...a biological ET artifact. Something for you and perhaps your science team? I'll leave it to you. If you want to contact [REDACTED] let me know..he is in Denver for today staying with a friend... [REDACTED]. Otherwise, I can find him on the road...he will be in LA next.

You will be seeing [REDACTED] at the Mesquite ufo congress conf. this August.
copy of [REDACTED] note follows:

Also, by coincidence (right...), I met [REDACTED] for the first time last night. [REDACTED] is a wonderful heart and a very careful, logical person.

He started showing photos of this alien/human skull given to him for examination and I strongly 'felt' very clear things about the skull. Immediately, I got [REDACTED] on the phone and she confirmed and went further with info. Our take is (and Judy has the most info here) that this skull has alien origin....it is an alien-hybrid skull. That we got info energetically..it is a very tragic story, by the way.

Physically, a lay person like me can readily see that this skull is way out of the 'box' of homind shapes. So you have more non-scientific testimony worth nothing. However, you know [REDACTED] capabilities...this is a serious matter. You may want to keep your ears open for DNA and Carbon 14 funding sources so that Lloyd can get legit. and pure scientific information to confirm or debunk this potential proof of ET existence. In my view, this is better than an ET mechanical artifact...it is biology and not a manufacturable bit of metal, etc.

This was an evening of incredible events...someone in the room got information about me and someone with me that only 2 other people have been able to percieve.

..and as a topper, [REDACTED] called in and I was able to talk to him regarding [REDACTED]. we knew this was coming but didn't know how. Confidentially, Hilly has broadcast equipment being moved into his home so he can do the Art Bell show. I suspect that Hilly will be the std. Bell replacement when Bell is off....rumors go further as always. There was another replacement they tried out Fri night...he wasn't good..too bad..this other host has called Judy right after he was contacted by Art to replace him last Friday. This man then excitedly called [REDACTED] and told her she was the first person he thought of to put on the air. The plan was to get Judy on Dreamland (we have been waiting for three years), but looks like this guy washed out..can understand why. So, three days later another door opens up on Art's show. A month ago she told me not to try contacting Art, the show would be brought to our door.

[REDACTED] got this quote from Father last week. "I am speeding things up because the stakes are higher now."

It has been a month of days lately.
