COUNTER INTELLIGENCE CORPS REGION VI

SUB REGION FRANKFURT

III-JN-6344

AP0 757

MEMORANDUM FOR THE OFFICER IN CHARGE

Regraded CONFIDENTIAL by BLI
on 1-31-57
Authority of
L.E. Franco and L. ORDC

SUBJECT: BERNHARDT, Guido, Helmut, Julius

Re: "Flying saucers"

1. Reason for investigation: On 5 August 1947 Mr. CLAY of the FRANKFURT (L51/MS7) Provost Marshal's Office contacted this office and reported that Subject had attempted to enter the POW Compound for the purpose of contacting General CLAY and revealing to him the secret of the "flying saucers". The following information was obtained through interrogation of Subject.

2. Results of Investigative Activity:

5USC552 (b) (6) & (b) (7) (C)

a. BERNHARDT, Guido, Helmut, Julius,

was born on [redacted] He claims never to have been a member of any Nazi organization, and alleges that he served during most of the war with the Kriegsmarine (German Navy). He professes no technical skill, and gives his profession as student of history.

b. On 5 August 1947 BERNHARDT stated that he was prepared to give the following vital information to General CLAY or to his adjutant:

(1) The true interpretation of the "flying saucers" which are, according to Subject, a new and terrible weapon of atomic destruction.

(2) The name of the foreign power which sponsors these weapons and which intends in the very near future to employ them for the destruction of the world.

(3) The method by which the destruction of humanity may be prevented.

(4) The exact location of HITLER and KRIEMER.

c. Subject was informed that an audience with General CLAY was impossible and unnecessary, since such information was always forwarded indirectly. Subject refused to give the information indirectly, however, since he believed that time was too short, and that the terrible responsibility could be assumed only by the General himself. At this point Subject was given the address of the FRANKFURT CIO Office and told to report here at 0830 hours 8 August 1947 with a complete written account of his information (Exhibit A).
