Letter of the

Dear Sir,

On the evening of Sept. 10th at about 10:30 P.M. I saw what appeared to be two satellites in orbit over Conway, New Hampshire. These two objects were tracking slowly (as a satellite would) from West to East and were followed by a third object at intervals.

On the evening of Sept. 11th I saw another tracking from North to South. This time with a great number of other objects in the field. The objects were all of different sizes and shapes (see sketch there).

I have a sketch of the objects and of my husband and I in the field.

Will you please place same.

Sincerely,

Thos.
