Dear [REDACTED]

It is true I was denied access to a facility at Wright-Patterson. Because I never got in, I can't tell you what was inside. We both know about the rumors.

SEE NY
PAGE 129

Apart from that, let me make my position clear: I do not believe that we are the only planet, and of some two billion that exist, that has life on it. I have never seen what I would call a UFO, but I have intelligent friends who have, so I can sort of argue either way.

Sincerely,

[REDACTED]

Mr. [REDACTED]

Dear [REDACTED]

First, let me tell you that I have long ago given up acquiring access to the so-called blue room at Wright-Patterson, as I have had one long string of denials from chief after chief, so I have given up.

In answer to your questions, one is essentially correct. I don't know of anyone who has access to the blue room, nor am I aware of its contents and I am not aware of anything having been relocated. I can't answer your question six, in fact, I can't find anyone who would answer it.

To tell you the truth, Mr. Graham, this thing has gotten so highly classified, even though I will admit there is a lot of it that has been released, it is just impossible to get anything on it.

I am returning your papers because I know they are of value to you.

Sincerely,

[REDACTED]

REPLY TO
ATTN OF: DAD

15 Jan 81

SUBJECT: Request Under The Freedom Of Information Act

TO: 

1. We received your 30 December 1980 request for data on Project "Blue Room" from the HQ FTD/DADF on 9 January 1981.
2. We do not have records of Project "Blue Room" at this headquarters.
3. The AF Form 1350 you provided helped us identify the organization at Wright-Patterson that was apparently responsible for "Blue Room". We reviewed the inventory of records that were retired by the organization but we found no mention of the project.
4. We also asked our historians to conduct a search of the records in the Archives hoping to at least find a monograph that contains the start and finish of the project. Unfortunately the official histories do not show the Code word "Blue Room".
5. We must conclude that records of the project were destroyed.

Mr. [REDACTED]

Dear [REDACTED]

Thank you for your recent letter concerning the so-called "Blue Room" at Wright Patterson Air Force Base.

While I could appreciate your interest concerning this matter, the only thing that I have to go on concerning that situation is rumor. It would be impossible, these many years later, for individuals to reconstruct what they knew or did not know about the prospect of the United States having an Unidentified Flying Object. If, in fact, we did gather some technology which we have been able to keep secret all these years and use in supporting our efforts in some of the organizations which you name, I would consider that to be a great success rather than a crime against our country and its people.

The movement of technology these past few years would lead me to believe that we have raced rapidly by anything which might have existed in the late 1950s or earlier.

Thank you for your interest in this matter and I wish I could be of more assistance.

Sincerely,
[REDACTED]

APRIL 25, 1988

"Of all the hotel's many pleasures, I found none more charming than an early-morning stroll about the grounds. So, as was my custom, I arose before six. As I reached the secluded garden, there to peruse the morning Journal, another early-riser passed. I smiled. He smiled. It was some minutes later that I realized I'd exchanged pleasantries with a man who hadn't been photographed in two decades."

he's honest and he worked hard. I was frankly a little surprised when he was chosen as Vice-President—but that's neither here nor there."

JIMMY CARTER: "I felt sorry for Jimmy Carter, but maybe history is going to treat him much better than we're treating him today. The things he tried to do he honestly believed in. You can't find fault with a man like that. He and I had our arguments—the B-1 bomber, reclamation, Indians. Not a top President, but not as bad as he might have been."

UFOs: "I used to receive a hundred calls a year from people who wanted me to get into the Green Room at Wright-Patterson Air Force Base, because that's where the Air Force stored all the material gathered on UFOs. I once asked General Curtis LeMay if I could get into that room, and he just gave me holy hell. He said, 'Not only can't you get into it but don't you ever mention it to me again.' Now, with millions of planets that we know are up there, it's hard for me to believe that ours is the only goddam one that has things that can think walking around on it. So when people tell me they've seen UFOs, I don't say they haven't. In fifteen thousand hours of flying, I've never seen one, but I've talked to pilots who have. I talked to an airline crew that swore up and down that an object came alongside of them one night, and before they could do anything it vanished. We lost a military pilot who went up to intercept strange lights and never came back. His airplane disappeared, too. I won't argue for or against."

ROBERT F. KENNEDY: "He was not the same class of man as his brother Jack. Bobby would do almost anything to get to an end."

WOMEN: "Women have lived in the shadow of men for centuries, and it's not easy for them to step out of that shadow. Some of the best people I've served with in politics are women. One day, we'll have a woman President—not because she's a woman but because she's demonstrably better—but I won't be here to see it. They criticized Pat Schroeder for crying when she pulled out of the Presidential race. Well, if you haven't got any emotion you're not worth a dime."

ABORTION: "I'm proud that my wife
