April 1st, 1996

Dear Steven,

It was disturbing to receive your letter of March 13 outlining your concerns about Bootsie Galbraith's role in our UFO efforts. As you know, we have supported a number of people in this field, including you, John Mack, and Bootsie's work through the BSW Foundation.

It has been my hope that we could engender a spirit of cooperation among the various groups interested, not only in UFOs, but in extraterrestrial intelligence generally, and those working in programs to expand the human spirit. One of our primary efforts has been to bring about more coordination and cooperation among these groups and I am sorry that we have not been successful in this instance.

Although we do not necessarily concur with all the conclusions of the briefing document, we do feel it is a useful undertaking. I hope that any future editions might give full credit to any of those that contributed to it in a meaningful way. Although I supported this project financially, I have not been involved in the management or direction of it, and it does not seem useful that I become involved in any disagreements that may ensue from its publication.

I know you wrote out of concern for our shared efforts and I hope we may have occasion to continue to work cooperatively. With appreciation for your work,

Sincerely,

[REDACTED]

Steven M. Greer, M.D.
International Director, CSETI
