

CSETI

Center for the Study of Extraterrestrial Intelligence

Steven M. Greer, M.D.
International Director

22 November 1994

Dear Mr. [REDACTED]

Enclosed are three RMIT reports for the past 6 months which we would like for you to have. We plan to send a team to Mexico and South America again within the next two months because of extraordinary activity there. A recent series of events in Monterrey resulted in some of the best video footage ever taken of a spacecraft in daylight. We have provided some of the Mexican researchers with information regarding our protocols, and they are beginning to apply them in the field with apparent success!

Thank you for your help with this effort to establish a viable and peaceful bridge between humanity and other planetary civilizations.

Wishing you and your lovely wife a bountiful Thanksgiving and the best of all worlds.

Sincerely,

Steven M. Greer M.D.
Director of CSETI
