

 was a fountain of information (huge underground facility at Johnson Space Center in Houston, where discs have been observed leaving), and could, I think, be eventually talked into another on-camera interview. An in-person visit or call directly from Dr. Greer would also help, IMHO.

Have located [REDACTED] last known telephone number: [REDACTED] (New Jersey).

Have not as yet called, as was waiting for dates for East Coast shooting, so that I could have something solid to talk about.

Am given to understand that he spends most of his time on his boat.

Note: I have good testimony from [REDACTED] on film (broadcast quality) from an old Sightings show, in which he talks about the flying saucers he saw parked at McDill AFB when he was Editor of the base newspaper.
