UFO Triangles...
Theirs or Ours?
Answer: BOTH

It has been rumored for years that the military's black operations has perfected incredibly advanced gravity-defying triangular supersecret aerial platforms at least partially derived from ET technology. It now appears the proof of such vehicles is to be released in a new book entitled *Alien Rapture - The Chosen* By [REDACTED] and Brad Steiger, due out in late June, 1998 from Galde Press.

Tonight, the world's most exotic and classified aerospace vehicle could be stealthily hovering somewhere over Phoenix, Arizona, Gulf Breeze, Florida, the country of Belgium, or your city. It is known as the TR-3B.

Science fiction or fact, you ask? *Alien Rapture - The Chosen* by [REDACTED] and [REDACTED] details the astounding government cover-up effected by the MJ-12 committee and reveals for the first time ultra top secret information about alien technology and reverse engineered technology we have developed as a result of the recovered alien artifacts.

The TR-3B is NOT fiction and was built with technology available in the mid-1980s or earlier. The triangular shaped nuclear powered aerospace platform was developed under the Aurora Program with SDI and black budget monies.

The Aurora Program is a top secret development program for advanced aerospace vehicles and has been responsible for development of the hypersonic strategic reconnaissance SR-75 Penetrator which replaced the SR-71 spy plane, and the SR-74 Scramp, which rides piggy-back the SR-75.

The tactical reconnaissance TR-3B's first operational flight was in the early 90s. Technology assuredly developed from reverse engineering of recovered alien artifacts and programs such as the SR-74 and SR-75 was used in the TR-3B. At least three of the billion dollar plus TR-3Bs were flying by 1994.

The TR-3B vehicle's outer coating is reactive to electrical stimulation and can change color, reflectiveness, and radar absorptiveness, thus making the vehicle look like a small aircraft or a flying cylinder—or even tricking radar receivers into falsely detecting a variety of aircraft, no aircraft, or several aircraft at various locations.

A circular, plasma filled accelerator ring called the "Magnetic Field Disrupter" surrounds the rotatable crew compartment and is far ahead of any imaginable technology. Sandia and Livermore laboratories developed the reverse engineered MFD technology. The government will go to any lengths to protect this technology.

The MFD generates a magnetic vortex field that disrupts or neutralizes the effects of gravity on mass within proximity by 89 percent. This is not antigravity. Anti-gravity provides a repulsive force that can be used for propulsion. The MFD creates a disruption of the Earth's gravitational field upon the mass within the circular accelerator.

The mass of the circular accelerator, and all mass within the accelerator, such as the crew capsule and the nuclear reactor, are reduced by almost 90%. This causes the effect of making a vehicle extremely light and able to outperform and outmaneuver any craft yet constructed—except, of course, those UFOs we did not build. The TR-3 is a reconnaissance platform with an indefinite loiter time. "Indefinite" because it uses a nuclear reactor for power.

Many sightings of triangular UFOs are not alien vehicles but the ultra top secret TR-3B. The NSA, NRO, CIA, and USAF have been playing a shell game with aircraft nomenclature - creating the TR-3, modified to the TR-3A, the TR-3B, and the Teir 2, 3, and 4, with suffixes like 'Plus' or 'Minus' added on to further confuse the fact that each of these designators is a different aircraft and not the same aerospace vehicle. A TR-3B is as different from a Teir 3B as a banana is from a grape. Some of these vehicles are manned and others are unmanned.

The TR-3B's propulsion is provided by three multimode thrusters mounted at each bottom corner of the triangular platform. The TR-3 is a sub-Mach 9 vehicle until it reaches altitudes above 100,000 feet—then God knows how fast it can

go!

and Exclusive to Jeff Rense - Sightings On The Radio.
5-20-98

To All Those Who Wish To Express Their Opinions

That which I disclosed on the May 15, 1998, exclusive show on Sightings On The Radio, I now record for clarification (and to provide a stationary target for those who desire to hurl venom.)

1. The new MJ-12 Document was received by a person with whom I had a close personal relationship for 30 years. His father, at the time, had spent over 20 years with the NSA and was an ex-military officer prior to that. The instructions he gave my friend and his son were: "Retype, remove the names, dates, security classifications, control numbers, etc." The classification was removed. The classification header "Ultra Top Secret" was placed there by myself (and no one else) to insure relevance within the fictional storyline. The document I was given contained the year, 1987. The 22 Feb is meaningless and was my addition.

2. IF this is genuinely a Top Secret Document, as I believe the original was, then let Uncle Sam come forward and protest the release of this information. I'm game. There is no proof in this book, not one detail, that will change anyone's mind. The only smoking gun is the heat researchers generate amongst themselves. There is no acceptable truth that will pacify everyone. Those of us who seek to know the truth were defeated long ago because we fight amongst ourselves. Some of you who protest the loudest have probably never even exercised your right to vote. If you have the energy to rant and rave, on and on, about this, then you have the time to E-Mail your Congressman or other elected constituent about your stand on government cover-ups. Try it.

3. Concerning the MJ-12 Autopsy report: There were NO NAMES, NO DATES, NO CLASSIFICATION MARKS, DEVICES, CONTROL NUMBERS, etc., on the material I received. This document, as I received it, was worthless to me and irrelevant for a fictional story. However, keeping my word to disclose the information which I was provided with was and is important to me. To make it useful for the book, I filled in the blanks. Feel free to do the same with this piece of the puzzle and let me know where I erred. I never claimed to be an MJ-12 expert. Ask the master, Stanton Friedman, who and what might belong in the missing blanks. I would trust his opinion more than anyone else's in the world.

The Roswell Report, The Autopsy Attachment follows
(Received)
(TS-MAJIC/EO) (Added)
OPERATION MAJESTIC-12 (Received)
PRELIMINARY ANALYTICAL REPORT (Received)
ATTACHMENT D. (Received)
PART B. (Received)
Section 3. (Received)
Preliminary Autopsy of (Received)
Extraterrestrial Biological Entity (s) (Added)
JULY 1947 ('5' added) (Received)

From: Dr. [REDACTED] Chairman National Research
Council Atomic Energy Commission; (Received)

Medical Advisory Board: Physiologist, Biophysicist (Added)

To: President Truman (Received)

Subject: Preliminary autopsy of unidentified
cadavers (multiple). (Received)

Time of death: 2330 hours (approximately) (Received)

Date of death: 4 July 1947 ('4' added) (Received)

Place of death: 45 miles north-northwest
of Roswell New Mexico (added '45') (Received)

Time of Preliminary autopsy:
1600 hours/Date: 5 July 1947 (added '5') (Received)

Place: Roswell Army Air Force Base, Roswell New Mexico
(Received)

In the following "Autopsy Report" text I received: all the names, ranks, dates, security classifications and references were removed, and blank spaces were provided in the document. (The lengths of the blank spaces is not significant.) For continuity of the FICTIONAL story I, not Brad Steiger or anyone else, speculated on the names and ranks. I challenge anyone to speculate with the blanks and find a consensus among any group. I apologize for any confusion I may have inadvertently generated. I have been totally candid with Jeff Rense, but I could only address one piece of this material at a time. I had, and have, no intention of mailing copies to all the opposing or favorable viewpoints. As planned, more and more information will be discussed and released on Sightings On The Radio. It is my hope that dissenters will please take a loud and clear stand now, so that when you are proven wrong, everyone will know your name. Few people in the military have worked the number of leading technology programs or held the number of

positions I've had. (See attached biographical data -ed). I previously stated, and continue to state, that the MJ-12 documents are THIRD-HAND. The technology I've spoken of and written about is SECOND-HAND. I am just a conduit for information, and a writer who has presented all this material in a fiction story so that it would make sense to the average reader who is not, and does not purport to be, an expert.

AUTOPSY REPORT TEXT AS RECEIVED
WITH BLANK SPACES INTACT

The purpose of this preliminary postmortem examination is to determine the causes and manner of death, the origin of the entities, and the type of biological lifeform. Doctor _____ is assisted by a noted forensic pathologist, Dr. _____, an Air Force pathologist, _____, _____ Mortuary Affairs officer, and an anthropologist, _____. Security personnel are stationed throughout the hospital and outside the operating room. Lt. General _____ commander of _____ at Wright Field and Secretary _____, are witnesses and will hand carry the report of the initial autopsy to the President of the United States. Unidentified debris of nonferrous materials was discovered _____ miles northwest of Roswell by a local _____, _____, witnessed by his _____ and _____. An early morning aerial search resulted in discovery of partially intact and severely damaged unidentifiable aerospace vehicle and unidentifiable bodies on _____ July 1947. An intelligence officer, _____ of the 509th Bomb Group Intelligence Office was the first official of the government to recover debris from the incident. Counter Intelligence officer, _____, of Air Intelligence (____), witnessed and assisted Major Marcel. Debris will be subsequently transferred to Wright Field in Dayton Ohio, Sandia _____, _____, and Classified Location _____. The bodies appear identical in appearance disregarding the damage sustained. One body appears to be undamaged and the other four are severely damaged from the trauma of the crash, exposure, and predators. The cadavers support a disproportionately large cranium and appear to be mongoloid/oriental by loose comparison. Each is clothed in a single piece metallic material of unusual strength while remaining soft and pliable. No _____ available can cut or pierce the material. The material has a dull sheen and is silver in color. Four bodies have external dermal abrasions and carbonized areas around the face and cranium. The one piece clothing on two of these bodies has separated in sections that run along a seam from under the arm down to the feet. Another seam with partial opening runs from the neck down the back to the buttocks. The bodies have

been stored in a cooler at the base and transferred to the base infirmary for the postmortem. The undamaged body is uncommonly warm to the touch. This is unusual since the other bodies are near freezing in temperature and all the bodies were removed from the cooler whose temperature is a constant 38 degrees. Some sort of chemical action or reaction continues to take place in the undamaged body in order to produce the 89.3 degree Fahrenheit temperature. (autodegradation -bio- decomposition) I have ordered each of the four damaged bodies be placed in a hermetically sealed container (Note: deleted by myself: "or -----") (End of excerpted sample)

Biographical/Professional Data Of [REDACTED]

[REDACTED] was born in rural south-central Georgia to fifth generation French-Americans. [REDACTED] and many generations of his relatives have historically been involved with the government and military in fields of intelligence, black programs, crypto, secure communications, and classified development projects.

This is true as far back as the French revolution. [REDACTED] was the Prime Minister under Napoleon, the head of his secret or national police force and a direct ancestor of [REDACTED]. [REDACTED] started and controlled the world's first professionally organized intelligence agency. The CIA, KGB, MI-5, Mossad, etc., used and expanded on his methods of intelligence gathering, networking information, and political survival. Some French historians consider him a scoundrel—because he survived many of his leaders, including Napoleon and the King of France, instead of going down with the ship, so to speak. The current Fouche's are proud of being descended from the Free French who opposed slavery, at great financial and personal expense, before and during the Civil War.

The [REDACTED] family moved from city to city frequently during Edgar's childhood. After leaving Americus Georgia, they settled for a few years in San Antonio, Texas. Yes, the move to S.A. from Georgia in "Alien Rapture," that little Joe Green experienced really happened as written. Go figure? [REDACTED] mother's family, the Rothschilds- Russells, are of French-German heritage and his grandfather Russell was a Nazarene preacher.

[REDACTED] graduated from Longview high school in East Texas, where he was a Thespian, an Honor student, a member of the Student Council, and on the football team. The Vietnam war was escalating and many of his friends and peers were sucked into the tragic political vortex. In February of 1968 while attending Kilgore College and working as a machinist making bombs for R. G. LeTourneau Industries. That month the military drafted a record high number of young men into the services, one of which was [REDACTED]

█████ went to Lackland AFB for Air Force basic training where he volunteered for Pararescue Training. Pararescuemen jump out of helicopters to rescue downed pilots, usually under fire in a hot zone. He fractured his ankle before jump school at the Fort Benning and was then shipped off to Keesler AFB, Mississippi. █████ initially went through a year of electronics, communications, intelligence, and cryptological schools. During the years 1967-1974, Edgar was stationed or worked at many Tactical Air Command (TAC), Air Training Command (ATC) bases, and Pacific Air Command Air Forces (PACAF) bases. He was at Kadena AFB Okinawa; Udorn AFB Thailand; Ben Hoi AFB Vietnam, and spent anywhere from a day to a month at many other South East Asian military bases.

He attended the University of New Mexico, the Air Force College, and the University of Maryland. He received degrees in Electronics and Avionics Technology from the Air Force and a BS in Business. Somewhere along the line, Edgar joined the Masonic Lodge, became a licensed diver, and received pilot training.

With his training and experiences in intelligence, special operations, black programs, and cryptological areas, he received other government opportunities. Edgar filled positions as Major Command (MAJCOM) Liaison, Headquarters manager, and DoD factory representative for Tactical Air Command, Strategic Air Command, Air Training Command, and Pacific Air Forces following the Vietnam war. As a manager of defense contractors, he dealt with classified "black" programs developing state-of-the-art Electronic Countermeasures, Cryptological, Avionics, and Satellite Communications Test Equipment.

█████ participated as a key member in design, development, production, and Flight-Operational-Test and Evaluation (FOT&E) in Aircraft development programs, state-of-the-art avionics, electronic countermeasures, satellite communications, cryptological and automatic test equipment (ATE).

During his military career, █████ was "hand picked" (Development Cadre) for many of the Air Force's newest fighter and bomber development programs. He was cadre for the F-111 (General Dynamics) swing-wing fighter-bomber at Edwards, Cannon, Plattsburg, and Mt. Home AFBs; the F-15 (McDonnell Douglas) Eagle air superiority fighter at Nellis and Kadena AFB, the A-10 (Fairchild) Wart-hog close air support fighter at Edwards AFB, the B-1 (Rockwell and GD) at Edwards AFB, the F-16 (General Dynamics) Falcon fighter at Kadena AFB.

His involvement with black programs developing stealth aircraft is classified. █████ is perhaps the only person who has worked at Groom Lake Air Base (Top Secret Area-51 Base), the Nellis Range, the Nevada Test Site, and Nellis AFB in Las Vegas Nevada and written about these experiences.

During his career, he was awarded the Air Force Meritorious Service Medal three times, the Air Force Commendation medal twice, the Presidential Unit Award, the Vietnam Service Medal with Valor, the Air Force Excellence Award, and the A.F Outstanding Unit Award. He received numerous other awards, decorations, and honors during his military career.

He was considered an Air Force expert with classified test equipment for cryptological equipment owned by the NSA, electronic counter measures and tactical jamming avionics and satellite communications. He has worked with many of the leading aircraft and test equipment manufacturers in the US.

Edgar performed as a civilian Engineering Program Manager and Site Manager for DOD contractors involved in classified research, electronic engineering, logistics support, and technical data development from 1987-95.

[REDACTED] is now CEO of Fouche' Media Associates. He has written "Alien Rapture - The Chosen" and developed a revolutionary software product called Neurosync M.I.M.E. (copyright 1998 - Fouche' Media Associates as seen on Fouchemedia.com

The following stunning document, partially displayed here, is excerpted with permission from Alien Rapture: The Chosen by [REDACTED] and [REDACTED]. The book is being published by Galde Press and will be available in late June. For further details, see the primary story about the TR-3B.

REVISED CHARTER

MARS JUPITER - TWELVE COMMITTEE

February 22, 1987

ULTRA TOP SECRET MJ-12EYES ONLY Page 01 of 03

ULTRA TOP SECRET MJ-12EYES ONLY Page 02 of 03

Presidential Order, February 22, 1987 By virtue of the authority vested in me as Chairman of the Mars Jupiter - Twelve Committee, an Ultra Secret Committee established by President Truman, with full consent of the permanent voting members of the Mars-Jupiter Twelve Committee, this Presidential Order by Proxy is established and ordered as follows:

1. CHARTER: There is hereby established the strategic group of key government personnel called the Mars Jupiter - Twelve Committee (referred to as, MJ-12) with authority to take any action, to the maximum extent possible, in relation to Foreign or Alien data, materials, information, technology, artifacts, and Extraterrestrial Biological Entities (EBE), all hereafter referred to as Foreign Artifacts (FA), which may bear upon the national security of the United States of America. Amendments to this Charter, and Foreign Artifacts materials and information shall be classified to the highest levels available to the US Government. The MJ-12 committee's actions and directives will be referred to as "The Program" outside the MJ-12 membership. The MJ-12 Committee shall have sole United States governmental authority to direct each FA aspect or substance, and to make such FA available to the President and/or to each member of the MJ-12 committee, and to such departments and officials of the Government as MJ-12 Chairman may determine; and to carry out, when requested by the MJ-12 Chairman such supplementary activities as may facilitate the securing of FA important for national security not now available to the Government and direct the acquisition, use, disposal, storage, and research as deemed necessary for current and future national security of the United States. All US laws, regulations, and directives are secondary to achieving these goals, not subject to the boundaries of the US proper, of providing for the integrity of the US national security and protecting the sanctity of the US Constitution.

2. CONTROL: The several departments and agencies of the Government and Department of Defense, as identified by the MJ-12 Committee, shall be notified by Departmental Directive to consider any FA as highly classified and alert the DoD Foreign Technology Division (FTD) immediately on the

occasion of any incident, happenstance, or encounter with FA. Directives will be developed by the MJ-12 Committee, the DoD, the DIRNSA and the President, as determined by the MJ-12 Chairman, detailing coordination; handling, transportation, isolation, quarantine, security, research, storage, and disposal of any and all aspects of FA; make available to the MJ-12 Chairman any and all such reports of FA, or any other pertinent (undefined) requests relating to national security as may be requested from this date forward.
