CONFIDENTIAL

Dear [REDACTED]

These events are really to be avoided.

You must understand that the UFO subculture is filled with pretenders, idiots and outright disinformation agents. The purpose of the cabal mixing good information with disinformation (there is some good thrown in the make the poison go down better!) is to present a false paradigm of "good ETs vs bad ETs". This is part of a psychological warfare program begun in 1953 by the CIA to prepare the public - and public leaders- to accept the costs of interplanetary war. As [REDACTED] told us on his death bed confession, this "alien threat" is a total hoax, designed to enrich the war profiteers and consolidate global power around a hoaxed false flag operation. I have extensive intelligence on this, including the use of man-made anti-gravity craft (my uncle designed the Lunar Module that put the first man on the moon so I have good sources inside the covert world of aerospace...) along with creatures that look 'alien' but in reality are also man made genetic projects (the gullible in the UFO subculture call these creatures 'greys').

Highly secretive projects have used these aircraft (called ARVs for Alien Reproduction Vehicles) along with these man made creatures, chemical agents and electromagnetic weapons to conduct 'alien abductions'. These are all HUMAN in origin, not ET. The so-called "alien implants" are man made sophisticated RF (radio frequency) tracking devices made by classified electronics projects (EG and G, Raytheon/ E-Systems Inc., others). It is a complex hoax designed to fool even the best casual observer, but falls apart quickly once good intelligence is gathered.

The vast majority of information presented at these conferences, therefore, is witting or unwitting disinformation. It is a tragedy.

Under no circumstances should you or any other VIP be identified with such nonsense. It will be the end of the genuine ET presence wishing to work with you to make peaceful contact. The most powerful interests in the cabal would like to hijack such an initiative and turn it into an arm of its disinformation machine.

President Reagan was targeted with such nonsense, believed it and launched the covert aspects of SDI (Star Wars) as a result. The French must learn from this tragedy.

People jump to paranoid and negative conclusions about the ET presence very easily- it is in our nature to fear the unknown. This has been exploited by the cabal by creating a movement of largely false information that portrays the ET presence in a negative or hostile way. Nothing could be further from the truth.

The ETs are very concerned about human hostility- we have a proven track record of world wars, genocide and weapons of mass destruction. IF they were indeed hostile, it would have been made clear to us in 1945 when we detonated the first atomic weapon, and certainly as we pushed into space.

The propaganda of evil aliens, false abductions, mutilations and the like is a part of a stage-craft to deceive the public and gullible leaders like George W. Bush and Ronald Reagan, among others. We must not be similarly deceived any longer. It is time for childhood's end and for us to go forward, fully aware of the virulent contagion of fear and false disinformation that infects the UFO data base and subculture.

I have over 500 sources inside various intelligence, defense and corporate entities that have provided me information on this. This is NOT theory. There is no doubt that the cabal is using such conferences to disseminate fear and false information to prepare the innocent masses to accept a future of inter-planetary war. We must not take the bait, please.

I suggest we meet in DC or at my estate in Virginia (about 2.5 hours from DC) to thoroughly review this information. [REDACTED] and I would be most honored to host you and your delegation here.

I will be sending to you and [REDACTED] a comprehensive Briefing for President Sarkozy that is extremely sensitive, immediately by Fedex. This Briefing contains top secret documents and a set of recommendations that we have provided to President Obama, Secretary of Defense [REDACTED], the new CIA director Leon Panetta, the new head of Homeland Security and the Chairman of the House Select Committee on Intelligence, among others.

It is time for honest Disclosure, free of the disinformation and fear-mongering prevalent at these conferences. And it is time that we make an honest effort at peaceful Contact- before the fools in the Cabal drag us to DEFCON 1 and interplanetary conflict. We are quickly running out of time to reverse course, and our planet is headed for a catastrophe if the wise among us do not act with mature wisdom and discernment.

In short, 90% or more of the information at these conferences is false information, usually passed on innocently by unwitting dupes who have no discernment. Some is deliberate disinformation purveyed by agents of the cabal (I know who they are and orally gave their names to Philippe to give to you...).

I look forward to speaking to you this evening and hope we can meet in the US (or Paris) to advance the cause of peace and understanding and to plan a way into the future that will be enlightened.

Best always,

Steve
