Date: 07/12/2000 6:59:27 PM Eastern Daylight Time

From: [REDACTED]

To: [REDACTED] (Steve Greer)

Steve, although this witness is still in process, I have filled out a preliminary evaluation for you to look at. This is a complex case, and I would like to know whether you might like to call this person yourself for the initial interview. It's fine with me either way. So far my communications have been on email. I would also appreciate your take on the veracity and usefulness of the material as it stands so far.

Thanks, [REDACTED]

PROTOCOLS FOR SENIOR RESEARCHERS

Please follow the following protocols as you contact prospective witnesses:

- 1.. Obtain full name, address, phone numbers, email and other data and record same

L [REDACTED] 8
[REDACTED]

- b.. Obtain brief educational and employment history relevant to the testimony (ie, government, military, intel., corporate)

(He is mainly a source for other witnesses, but he has his own story also.) Affiliated with a Technical Institute where he has been studying computer science and aerospace technologies. Has worked at IBM and Volkswagen but is now taking time out from both a job and his studies.

- c.. Record the details in summary form of the witness' testimony, providing salient information on date, location, position and involvement at the time of the UFO/ET event or project

1. Lars sent out the info on "The New Age Club" – a private, rich-man's MJ-12 supposedly founded by Nixon and recently dismantled by CIA Director Tenet. The release was written by a source with the pseudonym "Mr. Goodman," who is part of the Acclimation Program. In this release, Goodman refers to his source of the information as "a highly-reliable veteran intelligence insider." He also refers to a Dennis Bossak: a member of the "Club" who has gone public, claiming a 25 year directorship of the Club and an association with alien races.

In a series of communications over the last few days with Lars, in which I requested access to both [REDACTED] and [REDACTED] wrote to both of them. I have learned the following:

When [REDACTED] emailed [REDACTED] with this request, his email was shut down. His provider confirmed that his mailbox was "cracked and wasted." [REDACTED] responded to Lars that the intelligence source "respectfully declines to furnish the requested information, because your informant and his source decline to be identified, irregardless of their respect for Dr. Greer."

7/12 Lars is still trying to find [REDACTED] and has not responded to my request to contact Goodman directly. I proposed the possibility that the intelligence source could appear on camera under disguise, depending on Dr. Greer's assessment. He said it might work and he would contact [REDACTED] today and ask him. I urged him today to send Goodman's contact info for DG to contact Goodman directly under the strictest confidence.

2. Lars has his own story independent of above (which explains his involvement). In the summers between 1978 and 1984, Lars says that 3 high ranking British intelligence officers were welcomed to set up headquarters in the family barn and slept in

their house, near the East German border (for military maneuvers). After the first summer, when Lars was 9, he asked them about "space people" with whom he says he had had contact. After he badgered them, the officers told him about the Acclimation Program, [REDACTED] seeing things on the moon, their dislike for [REDACTED] project HAARP to shoot down ETs, and more. They told Lars they would give him no more information for 20 years. (more detail included in his letter). He had contact with one of the officers until the end of the 80s. They are: [REDACTED] and [REDACTED] m.

[REDACTED] has provided me with a copy of a hand-written thank you letter to his parents in 1978 from [REDACTED] in which he references [REDACTED] e.

In 1998, [REDACTED] tried to find them. He contacted the British Forces Liaison Organization in Germany and received a letter from [REDACTED] in German which I have a copy of. He says this letter gave him an address for one officer but he's not there, and Clark will not help him further. I have full contact info for [REDACTED]. It was when he was searching for the 3 officers that Goodman came forward from the Acclimation Program and asked Lars to distribute the information on "The New Age Club."

d.. Ascertain the witness' degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases) ?

He seems sincere in his interest in helping us and is cooperative so far. As stated above, [REDACTED] his intelligence source and Bossak are still being pursued. I suggested that the one highly sensitive intelligence source might testify under disguise, pending evaluation by DG.

e.. Ask if he/she has corroborating witnesses to the event or project or corroborating documents and other materials

This is in the works as described. Two documents have been procured pertaining to Lars own story with the British intelligence officers.

f.. Always ask if the witness has other evidence, networks, or contacts to other witnesses which could be useful to the project (they may not offer this and so this should always be asked).

It's premature to ask this right now.

g.. Write your own assessment of the value of the witness' testimony and credibility, and HOW the witness comes across (articulate, etc) .

There are some language problems. Haven't spoken yet to Lars, but have had extensive emails. Need to evaluate if at this point DG should make a call to [REDACTED] and I am continuing to pursue tracking down the sources. Some of his story seems questionable, such as the fact that he was only 9 years old at the time the officers spoke to him. Were the officers making up information to appease the curiosity of a 9 year old boy who thought he had seen "space people?" Obviously, if we can't track down any of the sources, that renders this worthless.

[REDACTED] swears numerous times to the truth of his story and seems sincere.
