UFOs, Nazis, Fascism..

Dear Mr. Green,

this history appears very incredible, but there're many original documents that proof it, documents that

our Centre (Italy's National UFO Center, since 1965; president Mr. Roberto Finotti) have studied for many years before to publish all the news, documents

verified with chemical tests by an independent scientist. In these documents there are UFO-sightings over Venice and Mestre in 1936: a cygar-shape and two flying saucer (one like Saturn) chased by an Italian Militar plane (there're two drawings...). According to man who has this material (secret reports, a diary, others fascist dossiers), in 1933 a flying saucer landed in Italy (perhaps near Milan); it was recovered by Fascism's secret policy (OVRA) and witnesses and reporters were "silenced"; after this episode, Mussolini created secret Gabinetto RS/33, to study these strange things (he thinked were Allied secret weapons); Gabinetto RS/33 was headed by [REDACTED] with scientists [REDACTED] si, [REDACTED] of Real Science Academy; between 1933 and 1940 Gabinetto RS collected mani UFO-sighthings "ante litteram"; in 1938 Adolf Hitler, during his travel in Italy (Rome, Naples and Florence) met [REDACTED] and obtained some material and documents about flying saucers (and after Nazis built V-7). In 1943, during Italian Social Republic, many documents were captured by nazis (but others documents not... we have them). So, "unofficial"; ufology (with secret commissions, debunking and cover up) was born in Italy, 1933 - not in U.S.A., 1947, no offence meant for American colleagues UFOresearchers -.

I'm - with [REDACTED] - Italian UFOlogist who's studying those intriguing documents

(I shall publish many documents in our site <http://www.cun-italia.net>). I'm not fanatic, not nazist, I'm skeptict about many UFO-themes but I believe these documents are astonishing (sorry for my terrifying English...).

Best wishes from Italy
