G'day, Steven,

You know,... I did email you about my arrival here and you did answer the email; however, I do understand how easy it is to forget. I had to retrieve the emails from you off our travelling hard disk to get your email address and that is how I "remembered" that I had already told you about our travel details to Colorado. Info overload.... That's my excuse....

I am sorry we will miss each other on this visit; but there will be another time I am sure; as we are planning to move to Colorado ASAP.

If you wish to send one of your colleagues from Colorado to interview me here in Pueblo on this trip, that would be fine. We would need to do the interview before 17:00 hrs Friday.

As the City fathers of Pueblo are organizing a meeting for me to discuss a joint plan for starting an aerospace and advanced marine propulsion R&D company here, we must stay in this area.

One way or another, we will expose the hidden technologies behind the coming deception.... Take care....
