WITNESS REPORT FOR [REDACTED]

1.. Obtain full name, address, phone numbers, email and other data and record same

[REDACTED] phone: [REDACTED]

2.. Obtain brief educational and employment history relevant to the testimony (ie, government, military, intel., corporate)

From 1991 – 1994 he was UFO desk officer at Secretariat (Air Force) for the British Ministry of Defense (MOD). Had a high security clearance. Government expert on UFOs.

First joined the British Ministry of Defense (MOD) in 1985. Worked for the Joint Operations Center in the Air Force Operations Room, dealing with the Gulf War.

Today, he has been promoted at MOD to "higher executive officer" – equivalent to Major in the US – at MOD. Has always been a civilian employee. His rank is OF-3. Now works on disaster and humanitarian relief and operations worldwide.

Author of book "Open Skies, Closed Minds" 1998

3.. Record the details in summary form of the witness' testimony, providing salient information on date, location, position and involvement at the time of the UFO/ET event or project

[REDACTED] had access to all reports, documentation and classified UFO material while at the UFO desk. He was in a position to know more about the phenomena in Britain than anyone in the country. He is not a witness to any UFO events himself, or to any hard evidence of UFOs (such as a landing site), but is a government official who had access to the files and conducted investigations while at the UFO desk. Has looked at the best information, believes in the reality of the phenomena, its ET origin, and speaks about national defense implications. Similar to the COMETA members in that regard.

4.. Ascertain the witness' degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases) ?

Very cooperative. Willing to be interviewed on camera for the DNP news special.

5.. Ask if he/she has corroborating witnesses to the event or project or corroborating documents and other materials

He is looking into contact information for Major Sir Patrick Wall, a conservative MP and NATO consultant, very active on the issue, an important witness. Wall is old, so Pope needs to find out his state of health. Most witnesses he encountered are classified and under jurisdiction of the MOD office. He will give this more thought. He asked me to call back in a few days on this.

He suggests we put adds in the military papers about the project asking for witnesses to come forward. He has provided names and phone number of the relevant publications (RAF, Army, Navy, MOD), and has offered to help with the language of the adds. He says communication protocols are very important and different than the USA...as an insider, he can guide us. We need to change some of our terminology.

6.. Always ask if the witness has other evidence, networks, or contacts to other witnesses which could be useful to the project (they may not offer this and so this should always be asked).

The only person he suggested for the UK is Timothy Good. He provided Good's number.

7.. Write your own assessment of the value of the witness' testimony and credibility, and HOW the witness comes across (articulate, etc) .

Top notch. Authoritative, articulate. Totally credible. This is the equivalent of getting one of the COMETA members in France.

8.. Let the witness know that we will be contacting him/her later to set up a date to conduct a full interview.

He has already agreed to meet with Steve on July 22nd in London. [REDACTED] will call him to make arrangements.

[REDACTED] July 13
