Hello,

My name is ##### and the reason for this email is as follows;

I have been interested in aliens for years, to be honest ever since my grandfather took me flying in his plane over Barton Airfield and we watched objects dance round our plane at 4000ft. My grandfather's name is ##### and he at the time was the secretary for the airport. Years later I was working in an army training facility in Dorset called Bovington Camp, with 2 colleagues I am sorry I can't give their names at this point, we were tasked to observe a training event being held by SAS and the SBS at Wareham Forrest next to Poole Harbour Dorset UK. Around midnight a C130 aircraft dropped in 12 SAS ops and left the DZ. At approx 0100hrs we established contact with the unit and began our SOP's. It was at that point that we noticed something odd with the unit, the point member was very very tall and was moving out of sync with the task force. We then identified 4 very tall chaps towards the rear of the unit. We were wearing standard issue night vision and equipment was working correctly. I removed NV and used binos to take a closer look at them and found that they were not like us. We carried on with the exercise until task was complete. We were debriefing at Hamworthy when 6 men entered the room and told us that we had entered into a secret op and that we were now under section 46a and to await a second debrief. I am now AWAL as a result of what happened over the coming years as a direct result of that ex. I have documents and video footage of 14 very sensitive events. I am willing to share this with your organisation because the public need to know. I hope this is of use to you. I have no regret for what might happen to myself as I feel it's for the greater good.

P.S. I have a mighty grudge with the MOD and revenge is a dish best served cold.
