Subject: 1986 ANSWER TO NSA

CUFON - UFO INFORMATION SERVICE SEATTLE, WASHINGTON

FREEDOM OF INFORMATION ACT DOCUMENT FILES

Mr. Dennis C. Chadwick
Chief, Information Policy
National Security Agency
Fort George G. Meade
Maryland 20755-6000

3-7-86

Dear Mr. Chadwick:

Thank you for your letter of 3 March 1986 and reply to my previous letter on Project Aquarius. I understand from your letter that you intend to abide strictly by the letter of the law in responses to FOIA requests. I had not realized that this was the attitude of the NSA or I would not have bothered you with questions in general. I have gotten the impression from other sources that the NSA does not maintain a generally open attitude toward the public, particularly where the subject of unidentified aerial objects is involved, and while completely understand the need to restrict some information what good is a country if its citizens are kept ignorant. Personally I feel that assessing a \$15,000 charge for information is simply a convenient way to disuade requests.

Let me therefore rephrase my request as I would prefer to judge for myself whether Aquarius has anything to do with my interests. Firstly, I do not want to endanger this country or any of its intelligence gathering sources. I am not a spy or a subversive, my father is a surgeon and Lt. Colonel in the Air Force and I wouldn't want to harm his career. Therefore I am requesting just a clean copy of the material NSA is maintaining which describes what the goal of project Aquarius is. I am not asking for all material you have but simply the initial forms, papers, or letters, which initiated this project and those which outline its purpose.

I cannot conceive that there should be anything but negligible costs to photocopy these materials. This should be waived inasmuch as it should be in the interest of the public to be aware of what their taxes are paying for. But if NSA needs reimbursement of copying costs then please let me know what the cost will be.

Sincerely,

Mr. _____

Subject: 1980 RAF WOODBRIDGE

DEPARTMENT OF THE AIR FORCE

HEADQUAILRS COMBAT SUPPORT GROUP (USAF)

APO NEW YORK

REPLY TO:

13 JAN 81

CD

ATTN OF.

SUBJECT: Unexplained Lights

TO: RAF/CC

1. Early in the morning of 27 Dec 80 (approximately 0300L), two USAF security police patrolmen saw unusual lights outside the back gate at RAF Woodbridge. Thinking an aircraft might have crashed or been force down, they call for permission to go outside the gate to investigate. The on-duty flight chief repoded and allowed three patrolmen to proceed on foot. The individuals reported seeing a strange glowing object in the forest. The object was described as being metallic in appearance and triangular in shape, approximately two to three meters across the base and approximately two meters high. It illuminated the entire forest with a white light. The object itself had a pulsing red light on top and a bank(s) of blue lights underneath. The object was hovering or on legs. As the patrolmen approached the object, it maneuvered through the trees and disappeared. At this time the animals on a nearby farm went into a frenzy. The object was briefly sighted approximately an hour later near the back gate.

2. The next day, three depressions 1 1/2" deep and 7" in diameter were found where the object had been sighted on the ground. The following night (29 Dec 80) the area was checked for radiation. Beta/Gamma readings of 0.1 milliroentgens were recorded with peak reading in the three depressions and near the center of the triangle formed by the depressions. A nearby tree had moderate (.05-.07) readings on the side of the tree toward the depressions.

3. Later in the night a red sun-like light was seen through the tree. It moved about and pulsed. At one point it appeared to throw off glowing particles and then broke into five separate white objects and then disappeared. Immediately thereafter, three star-like objects were noticed in the sky. Two objects to the north and one to the south, all of which were about 10 degrees off the horizon. The objects moved rapidly in sharp angular movements and displayed red, green and blue lights. The objects to the north appeared to be elliptical through an 8-12 power lens. They then turned to full circles. The objects to the north remained in the sky for an hour or more. The object to the south was visible for two or three hours and beamed down a stream of light from time to time. Numerous individuals, including the undersigned, witnessed the activities in paragraphs 2 and 3.

CHARLES I. HALT, Lt Col, USAF

Deputy Base Commander

Dear Mr. Arnon:

The subject of UFOs is one that has interested me for some time. About ten or twelve years ago I made an effort to find out what was in the building at Wright Patterson Air Force Base where the information is stored that has been collected by the Air Force, and I was understandably denied this request.

It is still classified above Top Secret. I have, however, heard that there is a plan under way to release some, if not all, of this material in the near future. I'm just as anxious to see this material as you are, and I hope we will not have to wait too much longer.

Sincerely,

Barry Goldwater

Book & Review

Cover Shot

The Day After Roswell

by Philip J. Corso & William J. Birnes

The Day After Roswell completely hinges on the credibility of retired Army Colonel Philip J. Corso. However, with a background and credentials like Colonel Corso has, there is no reason to disbelieve his claims. And some fascinating claims they are! This book details Corso's involvement with the Roswell crash and the events that follow. Probably the most amazing claim Corso makes regards the quick evolution of technology following the Roswell crash.

According to Corso things such as fiber-optics, the integrated circuit and lasers were all reverse engineered from the crashed alien spaceship.

What really makes this book "spooky" is that everything actually makes sense!

Beyond Roswell: The Alien Autopsy Film, Area 51, and the U.S. Government Coverup of Ufo's

N/A

by Michael Hesemann & Philip Mantle

Some of the biggest Government conspiracies are discussed and tied together in *Beyond Roswell*. This books starts with the earliest human encounters with UFO's and proceeds to take the reader step-by-step through the history of the phenomenon. Along the way, the Roswell crash, the Alien Autopsy film, Area 51 and more are all woven into a larger Government cover-up. This book leaves the reader with more questions than answers, but that's the way it's going to be until the Government finally admits to you-know-what.

The Ufo Invasion: The Roswell Incident, Alien Abductions, and Government Coverups

by Kendrick Frazier, Barry Karr & Joe Nickell

This book is a review of many UFO cases. Much of the book is focused on alien abductions, but there is still a lot of good Roswell information here.

Other selected Roswell related books (not reviewed yet):

Top Secret/Majic

by Stanton T. Friedman

Friedman tells the increidble story of the recovery of flying saucers near Roswell, New Mexico, in July, 1947. According to the author, President Truman established a committee (called alternatively Majestic-12, Majic-12, or MJ-12) to deal with the resultant very highly classified investigations of the crashed saucers and their non-human inhabitants. 13 photos.

Subject: Re: Historical File - Kecksburg 'UFO Crash'

I wrote to James Easton:

>>The American spacecraft analogies you offer don't work -- all these craft
>>deployed multiple parachutes in addition to relatively soft ocean-landing
>>splashdowns.

>>Not only is there no report of parachute deployment in the Kecksburg
>>incident, nobody described the wreckage as fragmented, charred debris,
>>that it most certainly would have been if it had been any type of man-made
>>spacejunk.

To which James replied:

>I have to weigh up the fact that the failed COSMOS 96 satellite seems to
>fit the profile - even down to apparent first hand testimonies of the
>object's size, very distinctive shape and inscribed bumper - against
>speculation that it may not have survived such an impact.

>I don't really see any evidence that it couldn't possibly have been the
>COSMOS 96 satellite. If it wasn't, I haven't seen any credible evidence
>being offered for an alternative source, or an explanation of why that
>alternative source was apparently so similar to the COSMOS 96
>satellite.

Hi James,

In the absence of parachutes, breaking rockets or other aerodynamic lift/control surfaces we're either dealing with a "hollow" (Soviet?) satellite shell which should have burned-up on reentry and/or disintegrated on impact, or else a "solid" body that should have created an impact crater. Based on all the eyewitness reports, the Kecksburg object doesn't seem to conform to either of these scenarios.

How do you resolve the COSMOS 96 explanation with these factors?

Regards,

Vince

PS: Nice work on the Santilli dissection. Try posing this question to the Santilli apologists: Is there **any** statement that Santilli has made that has been proved to be truthful (other than his confession that he's "only in it for the money")?
