

OPERATION BLUE FLY RESEARCH PROJECT
Clifford E. Stone, Director

Phone: [REDACTED]

February 21, 1992

Dear Senator Bingaman,

Enclosed are 83 more signatures to our petition requesting the assistance of your office in demanding the truth of the American Intelligence Community as to what really crashed/landed here in the Roswell, New Mexico area on the night of July 2, 1947. This brings the total number of signatures on our petition to 933.

I understand that you are unable to create a committee to investigate this incident. Therefore, all I request is that your office inquire of Detachment 21, Air Force Special Activities Center at Fort Belvoir, Virginia requesting the T-2 (as it was called in 1947) Report concerning the so-called Roswell Incident. This information currently exist in what is known as a Operation Blue Fly Report, to wit: Operation Blue Fly Report 314. In 1947 this information was part of the Air Force's Air Technical Service Command (T-2) at Wright-Patterson AFB in Dayton, Ohio under Intelligence File 319.1 "Air Intelligence Division Studies."

In short all I am requesting of your office at this time is that your office request a copy of the FINALIZED T-2 REPORT WITHIN THE FILES OF "OPERATION BLUE FLY" AT DETACHMENT 21 AFSAC, FT. BELVOIR, VA. CONCERNING THE SO-CALLED ROSWELL INCIDENT. Surly this can not be asking too much if all that happened was the recovery of a simple weather balloon.

As always, I wish to express my appreciation for your concern and interest in this matter.

Sincerely,

Clifford E. Stone

Dear Senator Domenici,

Enclosed are 83 more signatures to our petition requesting the assistance of your office in demanding the truth of the American Intelligence Community as to what really crashed/landed here in the Roswell, New Mexico area on the night of July 2, 1947. This brings the total number of signatures on our petition to 933.

FACT: On the night of July 2, 1947 "something" crashed/landed on a ranch about 75 miles northwest of Roswell, NM and what that object was has been cover up for the last 45 years by the American Intelligence Community. Why?

FACT: On December 9, 1965 "something" crashed/landed in the Kecksburg, PA area and what that object was has been cover up for the last 26 years by the American Intelligence Community. Why?

FACT: In March, 1968 "something" crashed/landed in the country of Nepal and what that object was has been cover up for the last 24 years by the American Intelligence Community. Why?

For the last 4 months I have asked for just an interim report as to what was being done to get some information from the intelligence community as to what the so-called Roswell incident really was. I am aware that your office was informed by the National Security Agency in November 1987 that my letters to your office concerning this incident of 1947 was a matter of "National Security Policy." Therefore, I am once again asking for an interim response within 30 days of the date of this letter. I will assume that if I do not receive a response from your office within 30 days this will constitute confirmation that you are aware that any response would require the release of Extremely Sensitive Compartmented Information. After all, the only item I am asking for is A FINALIZED INTELLIGENCE REPORT CONFIRMING ONCE AND FOR ALL THAT THE OBJECT THAT CRASHED/LANDED IN THE ROSWELL, NM AREA ON JULY 2, 1947 WAS NOTHING MORE THAN A DOWNED WEATHER BALLOON. Right???

As always, I once again, wish to express my sincere appreciation for your most kind assistance and interest in this matter. You will know the truth and the truth will make you free or so says the Central Intelligence Agency.

Sincerely,

A handwritten signature in cursive script, appearing to read "Clifford E. Stone".
