

MEMO FOR RECORD

6 Feb 86
2:56 PM

[REDACTED] Domenici's office [REDACTED] from Senator [REDACTED] returned my call. I asked him if he had any knowledge of the purported cash of an "atomic ship" under the control of the US Government in the Dulce, New Mexico area. Mr. [REDACTED] stated that he had had contact with a gentleman from the Albuquerque, New Mexico area concerning this purported incident. However, this was only to assist the gentleman as to what agency he should report the purported incident to. It was suggested that he report it to the New Mexico Environmental Improvement Agency. I asked Mr. [REDACTED] if this gentleman in question was in fact a Mr. Paul Bennewitz. Mr. [REDACTED] stated, "Yes, it was."

I asked Mr. [REDACTED] if he was aware of a Purported document that was purported to have been released as a result of the FOIA concerning such projects as Project Snowbird. Mr. [REDACTED] stated that he believed Mr. Bennewitz had sent him a copy of a document that had been stamped, TOP SECRET and that it did mentioned something about a Project Snowbird. However, all documents were returned to Mr. Bennewitz and Senator Domenici Office did not retain any.

I thanked Mr. [REDACTED] for his time and trouble in answering my questions.

(SIGNED)

C [REDACTED] E

[REDACTED]
[REDACTED]
[REDACTED]

ASSESSMENT OF PURPORTED "TOP SECRET" DOCUMENT (SNOWBIRD)

1. The document in question is purportedly to be one (1) page of a larger document said to be seven (7) to nine (9) pages in length. The document is said to have been released VIA the "Freedom of information Act". However, this does not seem to be the case as the document is lacking down grading instructions, release authority, and release date. The document does not contain any reference as to the office or agency of origin and the document is undated.
2. The document is marked "TOP SECRET" at the top and bottom of the one page of the document. This is consistent with existing DOD and Departmental Regulations and Directives concerning marking of a classified document, requiring each page of the document to be stamped at the highest classification of the document at both the top and bottom of each page.
3. At the top of the one page is the marking, "SUB PROJECTS UNDER PROJECT". This would indicate that this is the first page of the document. Such markings are commonly used within the Intelligence Community. However, they are not common knowledge outside of the Intelligence Community.
4. Each paragraph on the document has the lead line "(TS/ORCON)". This indicates the classification of the information within the paragraph (TS - TOP SECRET) as well as indicating restrictions on reproduction, dissemination or extraction of the information contained in the paragraph (ORCON - DISSEMINATION AND EXTRACTION OF INFORMATION CONTROLLED BY ORIGINATOR).
5. Each project named in the document is followed by a "PROWORD". Once again the use of prowords or code words are common knowledge within the Intelligence Community. They are used to identify a certain project or operation.
6. According to the document, "PROJECT SIGMA" deals with communications with the "Aliens". Several points need to be considered here. (1) Within the Intelligence Community, "SIGINT" deals with Signal Intelligence. (2) The National Security Agency is in control of Signal Intelligence for the U.S. Government. (3) The National Security Agency presently has a classified project by the name of "Project Aquarius". (4) It is my understanding that the proword for "PROJECT SIGMA" is Aquarius. Taking the above four mentioned points into consideration, it would be easy to conclude that "PROJECT SIGMA" could be a reality.
7. The markings, "TOP SECRET" appear to have been over stamped at both the top and bottom the document with the word, "UNCLASSIFIED". The correct term should have been, "DECLASSIFIED" if in fact the document was released

VIA the "Freedom of Information Act". This bothered me, so I discussed this matter with Mr. Lee Graham. According to Mr. Graham, the DIS Agents that were investigating his involvement with the "Snowbird" Document, told Mr. Graham in the presence of Mr. Graham's Security Officer that the document appeared to have been released VIA the "Freedom of Information Act" therefore they had no objection to him having the document. In an effort to avoid further misunderstanding about the document, Mr. Graham's Security Officer over stamped the document with the only stamp he had to indicate that the document was no longer classified, that being the stamp with the phrase, "UNCLASSIFIED" on it.

8. The document is double spaced. This would indicate that the document was a draft document or outline. This would be consistent with existing DOD Directives and Regulations.

DISCUSSION

I have made every effort to confirm or expose as a hoax the "Snowbird" document for over two (2) years. I have written to every Intelligence agency I can think of requesting their comments on the document. While none of the agencies would confirm the document's authenticity, none of the agencies would deny its authenticity. I wrote to several Senators requesting their assistance in getting to the bottom of this document. Only one, The Honorable Senator Pete V. Domenici, has made any effort in assisting me in this matter. However, even his office was informed that the matter dealt with "National Security Policy". In response to my letter to Senator Domenici dated, April 8, 1987. The only items that the National Security Agency refused to discuss, were in fact the items that dealt with the "Snowbird" document. This after asking that I rewrite my letter due to it dealing with, "National Security Policy". Every Intelligence Agency that I wrote, was required by the National Security Act of 1947, as amended in 1949 and current Executive Orders, to assume that the document was a "leaked" document and should have investigated it in an effort to determine if National Security had been breached, regardless of the subject matter of the document. Although it would appear that the Defense Investigative Service (DIS) did do their duty according to existing regulations and directives, they have never made their findings public. Why?

CONCLUSIONS

If the "Snowbird" document is a hoax, then Federal Law has been violated under the National Security Act of 1947. However, I do not feel that this is the case. It is my conclusion that the document was leaked and not released under the "Freedom of Information Act". I feel the the Intelligence Community has chosen to take the stand that if inquiries are made concerning this document, they will simply disavow any knowledge of the document. Thereby avoiding the necessity of answering embarrassing questions concerning a "leaked" document that goes against the publicly official policy of the U.S. Government concerning UFO's. I feel that this document must be further researched and the U.S. Government must be queried more until we get some concrete answers.

Dear Mr. Stone

We are in receipt of your letter dated 7 February 1986.

We cannot render an opinion on the record you enclosed. We can tell you it was not released from this office as a result of a Freedom of Information Act request.

We have no records relating to the projects listed in your letter.

Sincerely

Dear Mr. Stone:

This is in response to your letter of February 7, 1986, pursuant to the Freedom of Information Act, requesting NASA's "opinion as to the validity of the attached document marked TOP SECRET." You also requested any information NASA might have on the following:

- "1. PROJECT SIGMA
- "2. PROJECT SNOWBIRD
- "3. PROJECT ORCON"

The document that was attached to your letter does not contain sufficient identification to permit any opinion of its authenticity.

A search of the NASA Security Office files has revealed no information on Projects SIGMA, SNOWBIRD, or ORCON.

Sincerely,

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS AIR FORCE OFFICE OF SPECIAL INVESTIGATIONS
BOLLING AIR FORCE BASE, DC 20332-6001

De [REDACTED]

This is in response to your Freedom of Information Act request of 7 February 1986.

Access to files within the Air Force Office of Special Investigations (AFOSI) is through a computerized index maintained by the Defense Investigative Service. This index known as the Defense Central Index of Investigations (DCII) identifies investigative records held by any Department of Defense component and is not restricted to AFOSI files. A search of the DCII disclosed no record of AFOSI maintaining any files identifiable with "PROJECT SIGMA, PROJECT SNOWBIRD, AND PROJECT ORCON".

AFOSI cannot attest to the validity of the document which was provided with your letter dated 7 February 1986.

Sincerely

DEFENSE INTELLIGENCE AGENCY

Dear [REDACTED]:

This is an interim response to your February 7, 1986, Freedom of Information Act request, received in this Directorate on February 18, 1986.

Your request has been forwarded to the cognizant Component within the Office of the Secretary of Defense/Organization of the Joint Chiefs of Staff (OSD/OJCS) and is being processed as expeditiously as possible. As soon as all OSD/OJCS processing is complete, you will be provided a more substantive response.

Even though your letter did not indicate a willingness to pay search and reproduction costs as required, your request is being processed as the costs are expected to be minimal.

Should you have questions pertaining to your request, please call one of my action officers at (202) 697-4026 and refer to the above "Ref" number.

Sincerely,

PUBLIC AFFAIRS

OFFICE OF THE ASSISTANT SECRETARY OF DEFENSE

Dear [REDACTED]:

This replies to your February 7, 1986, Freedom of Information Act request which was received in this office on February 18, 1986.

The Defense Advanced Research Projects Agency (DARPA) has reviewed your request. Regarding Projects Orcon and Snowbird, the DARPA reports that they have no records concerning the two projects, therefore they are unable to provide an opinion as to the validity of the document attached to your request. The DARPA further reports that they have no Project Sigma records, however, the final reports for the project are available at the National Technical Information Service. The address is:

National Technical Information Service
5285 Port Royal Road
Springfield, VA 22161

Due to the minimal costs incurred, all fees are waived in this instance.

Sincerely, [REDACTED]

[REDACTED]

Dear Sir,

I am stationed in Roswell, New Mexico serving in a ROTC Assignment and would like to ask your assistance in the following matters. I have an interest in UFO's and use the FOIA to gather UFO related document from the U.S. Government. I have come across some very interesting material and feel that the only way some of these matters will ever be resolved is with the direct intervention of Congress. The U.S.A.F. stopped investigating UFO Reports on Dec 17, 1969. However, UFO Incidents continue to happen and are recorded in U.S. Government documents. To be sure some UFO Incidents never made it to the Blue Books Files during the time of the Air Force UFO Investigations. They were and still classified in the interest "National Defense". Why, if we are to believe the findings of Project Blue Book?

I would like to request your assistance in obtaining the following information from the National Security Agency:

1. Any information the NSA has on a Cuban MIG-23 that was destroyed by a UFO in March 1967. This incident never made it to the Blue Book Files. It was and still is classified "TOP SECRET". Why?

2. Any information that the NSA or U.S.A.F. has on the UFO Incident that happened at RAF Woodbridge Base in England on Dec 27 1980. The U.S.A.F. says that no investigation was made of this incident. I can't believe that. I still remember what happened at Pearl harbor, I feel that our military leadership does also.

3. The NSA's opinion as to the validity of the attached document, marked "Top Secret". If this document is bogus it is, in my opinion expertly done.

4. Any information the NSA has on a "Project Aquarius" or at least does "Project Aquarius" deal with UFO's. Another interesting fact. According to the NSA "Project Aquarius" is Top Secret. However, "Project Aquarius" showed up in a document that according to the U.S.A.F.'s OSI is bogus, about three years before the existence of "Project Aquarius" was known within the UFO circles.

I am requesting your assistance because I feel that the American public has a right to know the truth about what our government knows concerning UFO's. If not then we cease being, a government of the people, by the people, for the people.

Thank you for any assistance you can give me in this matter.

[REDACTED]

Dear C [REDACTED]

Enclosed please find a copy of the response which I have received from the National Security Agency regarding your inquiries about UFO's.

My staff mentioned that you have been in contact with them. I also understand that you did not receive my first letter to you in December. For that, I apologize - perhaps it was lost in the mail.

I hope the response from the National Security Agency is satisfactory. If I can be of any further assistance, please let me know.

My warmest personal regards.

Sincerely,

[REDACTED]

NATIONAL SECURITY AGENCY
CENTRAL SECURITY SERVICE
FORT GEORGE G. MEADE, MARYLAND 20755-6000

Serial: Q4-112-87

04 FEB 1987

The Honorable [REDACTED]

U [REDACTED]

Dear Senator Domenici:

This responds to your letter to the Office of the Secretary, Department of Defense dated 19 December 1986 on behalf of your constituent, Mr. [REDACTED] (Enclosure 1). Your letter has been directed to this Agency for response to you.

The National Security Agency (NSA) has received numerous Freedom of Information Act (FOIA) requests for information pertaining to UFO incidents. Our records show that Mr. Stone has submitted six such requests over the past 7 years. One of those requests was for the information mentioned in paragraph 2 of his letter to you, the UFO incident at RAF Woodbridge Base. In our 1 February 1984 response to Mr. Stone (Enclosure 2), we notified him that the estimated manpower and computer search costs involved in locating records responsive to his request were \$250.00. We advised him that, upon receipt of half that amount, a search would be made. Mr. Stone did not respond to our letter.

Regarding the information in paragraph 1 of Mr. Stone's letter, we have no record of receiving an FOIA request for documents dealing with a UFO destruction of a Cuban MiG-23.

Paragraph 3 of his letter asks for NSA analysis of the document he attached. It appears to be an Air Force document. The project names which are referenced, Sigma and Snowbird, are not NSA projects. We have no knowledge of the information contained in the document.

The subject of paragraph 4, project Aquarius, has been the subject of numerous FOIA requests. Apparently there is or was an Air Force project by that name which dealt with UFOs. Coincidentally, there is also an NSA project by that name. The NSA project does not deal with UFOs. We believe that the confusion on this issue results from an FOIA request submitted by another person with interest in UFOs, Mr. Christian Lambright.

Serial: Q4-112-87

Mr. Lambright requested all information on the NSA project Aquarius, apparently believing that the project pertains to UFOs. We advised Mr. Lambright that our project does not deal with UFOs. He then requested records revealing the "goal" of Aquarius, and we withheld the document because it is classified. We have reason to believe that our final response to Mr. Lambright, denying him access to the records, has been disseminated within a circle of those interested in UFOs and that subsequently a misunderstanding has developed regarding NSA, Aquarius and UFOs.

In responding to general FOIA requests for UFO information, certain documents have been withheld from the public pursuant to the first and third exemptions of the FOIA. The first exemption provides for the protection of information which is currently and properly classified in accordance with the provisions of Executive Order 12356. The third exemption protects information from disclosure by statute. The statutes applicable in this case are 50 U.S.C. 402 note (Public Law 86-36, Section 6), 50 U.S.C. 403(d)(3) and 18 U.S.C. 798. This Agency's decision to protect those records has been upheld by the United States Court of Appeals for the District of Columbia.

We hope that the information being provided to you will be of help to Mr. Stone.

Sincerely,

1

[REDACTED]

Dear Sir,

I wrote to you in November 1986 requesting your assistance concerning my interest in UFO's (See enclosure 1). The NSA responded to your request with the attached letter (See enclosures 2 - 4). First, thank you for making the requested inquiry on my behalf. However, I take exception to the NSA's response for the following reasons:

1. Everytime you write the NSA requesting information, they request \$250.00 (which I do not have). I feel that it is in the public interest to get the truth out. Therefore, what better public interest could be served then releasing this information to a member of Congress (YOU). I am once again requesting any information the NSA has on the RAF Woodbridge Base incident. Further, I request that all fees be waived in the public interest by virtue of this information being released through your office.

2. The NSA says they have no record of a request from me concerning the Cuban MIG being destroyed by a UFO (See Enclosures 5 - 8). Does the NSA denied that they were in fact the "agency" referred to in paragraph 1a of the USAF letter dated 15 Nov 79 (See enclosure 5)? What is the truth concerning the Cuban MIG destroyed in March 1967?

3. The NSA Letter states that , "Apparently there is or was an Air Force project by the name (Aquarius) which dealt with UFO's". While, is or was there an Air Force Project Aquarius as stated in the NSA Letter which deals or dealt with UFO's? If so, is this project classified?

4. I would also like to request that you contact the NSC, NSA and USAF for answers to the following questions:

(1) Why did DIS have such great interest in the Snowbird document (See enclosure 9), to go so far as investigating a Mr. Lee Grahham, after he came into possession of said document?

(2) Why was Mr. Bill Moore never questioned by DIS after Mr. Graham had identified Mr. Moore as his source?

(3) Why has the NSA and DIS totally disregarded DOD directives by failing to confirm or exposing as a hoax the Snowbird document, in an effort to determine if in fact there was a security leak?

(4) Does the NSC or NSA have information concerning UFO's over the past forty (40) years, that is in fact classified in the interest of "National Security" and was this information kept from members of Congress during Congressional inquiries concerning UFO's in 1966 and 1968 (i.e. the Cuban MIG being destroyed by a UFO in March 1967)?

1

(5) Once and for all, is the Snowbird document bogus, or a valid document? If the intelligence community has failed to determine this by now, why have DOD Directives requiring this action not been followed (DOD 5200.1 PH)?

(6) If UFO's are not a threat to our national security, then why does every intelligence agency have classified information concerning UFO's; classified in the interest of national security by Executive Order 12356 (keep in mind I have been denied UFO information from these agencies on that premise, stating that the information I requested was currently and properly classified in the interest of national security)?

(7) Considering that UFO's do not represent a threat to our national security, then who is lying? The intelligence community, with classified UFO information or the US Air Force with the Project Blue Book finding?

A Statesman once said, concerning the Pentagon Papers, that a government has a right to lie to its citizens in the interest of security. I feel this is only true of a self-serving government. It can not, it must not, be true of a government serving the interest of its people.

I know I ask alot, but I beg of you sir, please help me to get some answers to these questions. I secinerely feel the American Public has a right to know the truth.

I remain respectfully yours,

XXXXXXXXXX

NATIONAL SECURITY AGENCY
CENTRAL SECURITY SERVICE
FORT GEORGE G. MEADE, MARYLAND 20755-6000

Serial: Q4-1085-87

30 SEP 1987

The Honorable [REDACTED] i

Dear Senator [REDACTED] i:

This responds to your letter of 5 August 1987 on behalf of your constituent, [REDACTED] e. Enclosed is [REDACTED] latest correspondence which raises the same questions as his November 1986 correspondence to you. Our response is keyed to the exceptions he has taken to our previous reply.

Item 1. Mr. Stone takes exception to our request for \$250.00 to conduct an Agency-wide search for the information. As you know, the FOIA provides for fees to be waived but only under certain carefully defined circumstances. He also reiterates his request for information on the RAF Woodbridge Base incident. Given that NSA's primary missions include communications security, computer security and the production of foreign intelligence information, the probability of our having information on this incident would be unlikely. It is possible, however, that the general term "unidentified flying object" may appear in certain Agency material and therefore would be considered a responsive record if located during a search. The Agency material in which those words may appear is currently and properly classified according to Executive Order and is not segregable. The FOIA specifically exempts classified information from disclosure. Additionally, unidentified flying object is a general term and is not exclusively used to refer to extraterrestrial spacecraft.

Item 2. We cannot determine whether we were the "agency" referred to in the 15 November 1979 USAF letter. If the Agency did have any records on the March 1967 UFO destruction of a Cuban MiG, they would not be available for release since they would be currently and properly classified.

Item 3. NSA has no information on a Project Aquarius dealing with UFOs. Since Mr. Stone refers to an Air Force project of that name, we recommend he query them on the matter.

As for the issues raised in items 4 and 5, we have no knowledge of Snowbird and therefore would not have undertaken any action regarding the points Mr. Stone raises.

With respect to the classification issue raised in items 6 and 7, we can only reiterate what has been said before. We make every effort to interpret any FOIA request as broadly as possible in order to comply with the spirit of the law. An agency may not have individual records dealing solely with UFOs but could have records containing a reference of some type to UFOs which are either currently and properly classified under Executive Order 12356 or protected by statute. If this is the case and the reference to UFOs is not easily segregable from the classified information, the record would be withheld. The withholding of this information has been upheld by the United States Court of Appeals for the District of Columbia.

As for Mr. Stone's allegation in item 4.(4), classified information is not withheld from Congress during Congressional inquiries as long as arrangements are made to protect the information.

Please assure Mr. Stone that we have responded as completely as possible. We have no information on Aquarius or Snowbird and documents even remotely responsive to requests for records on UFOs are properly classified. We hope that this information will assist you in your response to Mr. Stone.

Sincerely,

Encls:
a/s

[REDACTED]
[REDACTED]
[REDACTED]
January 4, 1988

Dear Senator [REDACTED]

I wrote your office on 6 November 1986 than again on 8 April 1987 requesting your assistance in getting some honest and truthful answers concerning UFO's from the National Security Agency. To date all I have recieved is lipservice and double talk. I have yet to recieve any real, honest, truthful answers. I wish to once again express my thanks for your assistance. However, I would like to request that this time you demand truthful and honest answers to my questions from the following governmental agencies: 1) The National Security Agency, 2) The National Security Council, 3) The Defense Investigative Service, and 4) the Central Intelligence Agency.

On 15 January 1988, I plan to hold a news conference at which time I will explain why I feel the "Snowbird" Document is valid and not a hoax. I can now prove that the NSA asked your office to ask me to redo my letter of 8 April 1987 due to the opinion that it dealt with national security policy.

I would like for your office to once again ask the four agencies named above the following questions. Also, I would like responsible, direct answers, not lipservice or double talk. I am prepared to ask these same questions til Hell freezes over until I get responsible, direct answers.

1. Any information the above named agencies might have on the UFO Incident that happened at RAF Woodbridge Base in December 1980. This incident did happen. There must be documentation within the above four mentioned agencies dealing with it.

2. Any information the above four agencies have on the destruction of a Cuban MIG in March 1967. I realize that the information the NSA has on this incident is classified TOP SECRET UMBRA on a strict need to know basis. However, I will accept a simple yes the incident did happen or a simple no the incident did not happen. I do not think this is asking too much and surely would not compromise any state secrets. After all, have not alot of the documents dealing with shooting down of Korean Airlines Flight 007 been declassified and released in the interest of political consideration by the National Security Agency?

3. Is or was there an Air Force Project Aquarius. The NSA stated in their reply to you concerning my letter of 6 November 1986, "Apparently there is or was an Air Force project by that name which dealt with UFO's"

I am asking the NSA this question due to their response to the 6 November 1986 letter. If there is no Air Force Project Aquarius, than why did the NSA make such a statement?

4. Once and for all, is the Snowbird Document (Incl 1) bogus, or a valid document. I am of the opinion that this document must be a valid document. If not why does every government agency try to avoid answering questions concerning this document? Why has no government agency come out and called this document a hoax? Why did the DIS investigate Mr. Lee Graham concerning his involvement with the Snowbird document? Why wasn't Mr. William Moore never questioned by the DIS after Mr. Graham identified Mr. Moore as his source of the document? Could it be that Mr. Moore is a government agent? Also, why has every government agency I have contacted not realized that, if this document is real, it would appear to be a leaked document as opposed to a document being released under the FOIA which would result in a violation of the National Security Act of 1947 as ammended by current and existing laws and Executive Order.

5. The above named agencies had classified information concerning UFO's during the 1966 and 1968 Congressional inquiries into UFO's and this information was never made available to the Congressional Committees. Why, if we are to believe, "that classified information is not withheld from Congress during Congressional inquiries?" Please keep in mind that these agencies still have classified information on UFO's. Why?

The term "Unidentified Flying Object (UFO)" was created by Captain Edward J. Ruppelt, a former head of Project Blue Book, to replace the words, "Flying Saucer". Also the term Unidentified Flying Object was not included in the DOD's "Dictionary of Military and Associated Terms". To be sure the term "Unidentified Flying Object" should have died at the same time as Project Blue Book (December 17, 1969). So, I guess the last question would be, what does the term, "Unidentified Flying Object" mean to the National Security Agency. We have terms such as, unknown aircraft(s), unknown target(s), and bogey. So what could the term, "Unidentified Flying Object" possibly mean to the NSA?

If we have information that is in fact classified in the interest of national security concerning UFO's that would lead one to only conclude that some UFO's are in fact a threat to our national security. Therefore, the first conclusion of Project Blue Book and the Condon Committee would be incorrect as stated.

Please remember this is not a "Freedom of Information Act" Request. It is a request for Congressional Assistance. Therefore please insure that it is treated as

a Congressional inquiry. The last two responses from the NSA appear to have been treated as FOIA Request and I do not believe that a member of Congress should or has a need to invoke the FOIA to get the above answers to the questions I have asked. To be sure I feel that a member of Congress as a right to know the truthful, direct, honest answers to the questions I have posed as does the American public.

All I want is some truthful, honest, direct answers to the above questions. I do not not think this is asking too much. I sent to your office a packet of information concerning my interest in UFO's and proving that there exists some every interesting UFO cases in the files of various governmental agencies. However, I feel that these were filed away and never read. To me this is a sad note. If the documents I sent to your office are never read then you will never understand my concern and know what I believe to be the truth.

Thank you for any assistance you can give me concerning these matters.

Sincerely
