

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS 44TH SECURITY POLICE GROUP (BAG)
ELLSWORTH AIR FORCE BASE, SOUTH DAKOTA, 57706

REPLY TO
ATTN OF

CC

4 December 1975

SUBJECT

Base Defense

TO: Distribution A, B, C, D

1. Recent correspondence from higher headquarters has expressed concern over sightings of unidentified helicopters flying or hovering over priority "A" restricted areas. Sightings were reported during the hours of darkness at Loring AFB, Wurtsmith AFB, and Malmstrom AFB. All attempts to identify these aircraft have met with negative results.

2. The support of all personnel is solicited in reporting all sightings of unidentified helicopters that are flying or hovering over our weapons storage area, bomber alert area or missile launch facilities. Submit time, place, action and aircraft description when observed to the appropriate 24 hour security police desk at law enforcement, central security control or wing security control.

3. Our base security plan has outlined specific actions in Appendix 3. Annex G which security forces will take to counter a ground, air-borne or helicopter assault. To accomplish our mission it is important that all personnel promptly relay any possible threat against the base to the security police.
