Dear Dr. Greer,

My name is [REDACTED]. I live in [REDACTED] which is about 20 east of Philadelphia, PA. I have followed your work for about 20 plus years. I have always been very impressed with your work on disclosure.

My back ground is in electrical engineering and computer science. I worked in the 1960's on electronic and magnetic circuit designs and manufactured magnetic components used on Apollo and other NASA projects as well as defense programs. In the 1970's I worked as Senior Engineer for RCA in the Advanced Technology Laboratory in Camden, NJ. There we worked strictly on defense projects and the US government was our only customer. I held clearances above TS. Later, as a marketing manager for RCA I worked with DARPA and all the three letter agencies and laboratories for all the various service branches and was exposed to much technology in your area of interest.

I am also a pilot and hold an Airline Transport Pilot (ATP) certificate for both single/multi-engine land airplane and helicopter. As a pilot I have witnessed airborne glowing orbs.

Currently, I am involved in manufacturing nanoparticle colloids for use as dietary supplements. Our products also have industrial and scientific uses. Perhaps you may recall the little incident in the Peoples Republic of China in 2003 called the SARS epidemic. It was one of our products that stopped it. Our palladium colloid product has been used to reproduce the Pons and Fleischmann cold fusion experiments. There are many things we could discuss that are not suitable for mention by email.

I have developed protocols for using our products for a wide variety human health issues. The company that makes the colloids is Purest Colloids. You can browse our website to see our products here: [REDACTED]

I believe I may possibly be able to help with your endeavor. I would be happy to meet with you face to face for you determine if my help would be interest to you. You are welcome visit us in NJ or I will come to you.

Please advise if my offer is of interest. I would appreciate you confirming that this email was received by you.

Best regards,
