VIA FACSIMILE

October 23, 1997

Steven M. Greer, M.D.
[REDACTED]

Dear Dr. Greer,

I heard your presentations at the International Forum on New Science in Denver last week, and want to thank you for the update on your work. For purposes of this communication, however, I specifically keyed in on your report that both you and your research assistant Shari Adamiak have recently, and apparently concurrently, been diagnosed with metastatic cancer. Given the challenge that CSETI is posing to the inner section of our government responsible for the handling and cover-up of UFO/ET recoveries, it can be readily inferred that you and she are being targeted for elimination by the use of a psychronic technology known as Remote Influencing. Pioneered by the Soviets in the 1960s and 1970s, Remote Influencing has likely been developed by our own military as an outgrowth of the Controlled Remote Viewing (CRV) protocols that were developed at SRI International in the early 1970s under contracts let by the CIA. You may or may not be aware of this work.

My trainer in CRV developed (non-officially) protocols for Remote Influencing while on active duty with U.S. Army intelligence in the 1980s and early 1990s. He has had personal experience with the destructive potential of this technology and, because of its inherent malevolent power, refuses to train others in its use at this time. Nonetheless, I would strongly advise you to contact him to learn how you and [REDACTED] might possibly defend yourselves against what appear to be rather obvious attacks. Although he claims that there is no reliably effective and reproducible defense, I do know that he has been successful in repelling an attack against his own person at least once. It is, as they say, at least worth a try. His name and contact information are: [REDACTED] USA (Ret.); [REDACTED]

I wish you continued good health and long life in pursuit of interplanetary peace, amity, and comity. Please feel free to contact me if I may be of further help.

Yours in Light,

Bill Eagles

Re: (Fwd) Remote Viewer [REDACTED]n - meeting

Steve: I talked with [REDACTED]n last night & he'd like to help us in any way he can. I reviewed CSETI's ongoing & planned projects including STARLIGHT objectives & our April DC meetings.

He would like to meet with you prior to his permanent move to the Southwest, 23 October. His schedule:

3-5 October: meetings in Charlotte, NC

9-10 October: Monroe Institute

17 October: Lecture - Inst. of Noetic Sciences

He suggested perhaps the evening of the 5th or on the 6th when he is in Charlotte. Please contact him directly. You'll get his business/home answerphone thru which he screens calls. If he's there, he'll pick up.

Let me know how I can help further.
