

Subj: **witness report** [REDACTED]
Date: 8/3/00 9:43:33 PM Eastern Daylight Time
From: [REDACTED]
To: [REDACTED] (Steve Greer)

WITNESS REPORT: [REDACTED]

1. Obtain full name, address, phone numbers, email and other data and record same

[REDACTED]

[REDACTED]

2. Obtain brief educational and employment history relevant to the testimony (ie, government, military, intel., corporate)

Employment: has been a cab driver and in retail. Now he's on disability due to impact of mind control experiments he has been subjected to. He's 50 years old and 6 feet 4.

3. Record the details in summary form of the witness' testimony, providing salient information on date, location, position and involvement at the time of the UFO/ET event or project

This witness does not directly relate to the UFO issue. He says he has been the subject of FBI mind control experiments since he was 6 years old. At that time he couldn't stop drawing the CIA insignia before he knew what it was. Says he has been involved in Project Bluebird, Project Artichoke, and MK Ultra. Thoughts have been injected into his brain. They tried to frame him for the Hillside stranglings of 1977; as a result he cut his wrists and after recovering from that, tried to kill himself by jumping out of a car in front of an ambulance. Says the FBI is programming assassins. Now he's nervous and can't work. He can't make any links between this and UFOs.

4. Ascertain the witness' degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases) ?

Not sure yet. But he wants Dr. Greer to have this information.

5. Ask if he/she has corroborating witnesses to the event or project or corroborating documents and other materials

He says he has FOIA documents with his name on it associated with these projects. Has hundreds of pages of declassified documents on FBI mind control and on the 3 projects he was involved with. Can provide the names of many FBI agents involved in this with him – Don Halpern is one. Can provide the names of two friends – Kenny Alty (infantile psychosis experiments) and Dennis Dolittle – who have also been subjected to this and who he says we should talk to. If we want to pursue this, he will xerox the documents.

6. Always ask if the witness has other evidence, networks, or contacts to other witnesses which could be useful to the project (they may not offer this and so this should always be asked).

See above

7. Write your own assessment of the value of the witness' testimony and credibility, and HOW the witness comes across (articulate, etc) .

Not fully able to assess his credibility in the initial phone call. Some might call him paranoid. Some stories were pretty wild. He would need more time and energy to assess, and the documents would be needed. I question whether it's worth it since there is no UFO/ET link.
