To whom it may concern,

[Redacted]

I forgot to mention I do have an 8 second video I took of a UFO during our annual training of shooting field artillery in 2022.

Thanks again!

*video
& photos*

Here are a few photos and the video. I will also send a video of us conducting field artillery fire as a training exercise. The rounds that were shot were duds.

What happened was we were all watching the "live fire show" when out of nowhere this UFO appeared and kinda just sat there as if watching us. It wasn't picked up by the radar or we would have been notified to cease fire immediately. Secondly, we debated whether or not the craft was a drone however it was completely silent. It then took off past the horizon as the end of the video begins to show before it cuts.

I don't believe anyone sent up a report on the device since our "in the field" training was over and the device flew off once it saw we noticed it.

Most of my battery saw it. So I'd say like 20+ of us. One assumption we came too also was it could be a UFO. I do not believe anything was done about the event.
