██████████

Dear ██████████

Sir, in my continuing efforts, to get authentication, from the Air Force, to your ATLAS/UFO film encounter, I just received letter A. This appears (to me) to be a breakthrough, i. e. if I may acquire your Air Force records, which should reveal, that you did serve in the capacity, you have indicated.

indeed, there are rumors currently circulating in the Aerospace Industry, to the effect, that the Air Force now wishes the public to know the truth about the extra-terrestrial origin, of the UFO phenomena.

Please note article B, enclosed. This article, just released by the National Archives (See C, arrow), appears to reflect this change of attitude, on the part of the Air Force, as is indicated by the following-

Note B, page 4, arrow, underlined. This statement clearly contradicts that found in the Air Force- "Fact Sheet" on UFO's. See D, arrow, underlined. This fact (document B) has been kept from public disclosure for 37 years! See the back, arrow, of the title page.

Note the picture of the Flying Disc on page 9, arrow, of document B, therein treated as genuine. This Disc(UFO), is the same as the symbol on the logo of the Foreign Technology Division (See E, arrow), at Wright-Patterson AFB. The Foreign Technology Division is the alleged home of the July 2, 1947, crashed Flying Saucer artifacts. The- "Blue Room".

Ostensibly there was a committee of twelve individuals- ██████████

██████████ and H ██████████, appointed by President ██████████ September 18, 1947, to study this crashed Flying Saucer. I have seen this document called the- "Majestic-12"!

Ostensibly released along with document B, is also document F, which seems to support the above. If true (document F), this is positive proof, though I am yet unable to demonstrate the authenticity of document F. Please feel free to document or REFUTE this document, but let me know if you do!

To the end that I may now procure a copy of your Air Force records (See letter A, arrow, underlined), for the express purpose of acquiring (a newly found?) record, from the National Archives, of "your" ATLAS/UFO film encounter, I would appreciate your written permission, per letter A.

Thankyou for your time, Sir.

Most Sincerely

██████████

This is in response to your 24 March 1985 Freedom of Information Act request which was forwarded to this office from the National Personnel Record Center (NPRC). Also, the records on Dr Mansmann and Mr Jacobs have been forwarded with your request.

We were unable to locate Dr [redacted]s and [redacted]' records earlier when you requested them because did not have enough information to identify them. In order to honor your request for copies of their records, please send a release statement from [redacted] and [redacted]. Without a release, we can only provide you with a sanitized copy of the records.

In answer to your question concerning which specific Air Force agency you should write to in order to authenticate or refute the article in the National Inquirer, there is no Air Force agency which has the information you are seeking. All information on UFOs was transferred in 1975 to the National Archives and Records Service (NARS), Washington DC 20408. I suggest you write to NARS for more information.

This is not to be construed as a denial of your request. We do not maintain the information you desire.

Sincerely

[redacted signature block]
