Steve, here is another written witness testimony of the Bentwaters and related cases.

He was stationed with Lori out there, I believe.

Yes.

I used to keep a diary of sorts while stationed in England. Anyway, I'm looking right at two index cards I wrote on dated June 15, 1980.. here it goes verbatim off the card I wrote on 20 years ago!

"15 June 80 - Interesting nite - it's our 2nd mid and Wagner & Campbell have A-2. They sighted a UFO at five different occasions that nite/ Described as a red globe 20ft. in diameter. It hovered at times over aircraft pads/structures. Labrucherie also sighted the UFO; he had A-1. At one time they said the UFO glided over the trees to a meadow where it suddenly disappeared into a white flash (pooof!) and then nothing; except two deer which they say were not there previously. I believe this story to be authentic."

Now.. A-2 was the area response team or security patrol for the "A" aircraft parking area which mostly housed the A-10 aircraft. A-1 was the entry post to the "A" aircraft parking area. [REDACTED] I was told.. not sure, but.. have since left the Air Force & became a CA Highway Patrolman. [REDACTED] I don't know. I remember this very well because I caught sight of [REDACTED] in the morning while we were at the armory turning in our weapons.. end of shift.. I noticed a very shaken up Wagner in the background with MSgt. Faile.. our "B" Flt. Chief.. Faile was attempting to calm down [REDACTED] but was clearly not succeeding. The reason why Wagner caught my attention was because if you knew him, you knew him to be one of the calmest individuals around. Nothing ever fazed this kid.. but, something did that night.

The 2nd story I also wrote down, but have not been able to locate so I will recall from memory. I believe this happened between 15 June 1980 & the now famous Bentwaters/Woodbridge UFO incident time frame later on. I was assigned to W-2 (I believe that's what it was called) anyway, the roving security patrol in the Bentwaters WSA or Weapons Storage Area where the nuclear weapons were housed. It was night.. possibly a midnight

shift again.. I was with A1C [REDACTED]s. By the way, someone told me long time ago that Rick left the Air Force & became a Deputy Sheriff in West VA. I do not know this for a fact. Anyway, he & I were just sitting in the truck looking forward.. calm night.. nothing unusual.. structures all about.. perimeter fencing all lit up in lights with the concertina wires sparkling.. the tower up above & further up ahead was the entry control point to the restricted area.. again all lit up brightly. Then it happened all of a sudden.. a bright green object came flying from way high in the night's sky & crashed down towards us but just behind us into the tall forest behind & outside of the WSA. Only.. there was absolutely no noise whatsoever. It happened in a split second & was over just as quickly. I believe [REDACTED] & I just stared thru the front windshield for moments which seemed like minutes.. finally, I looked at him & asked "Did you just see what I saw?" And he said without breaking his forward gaze.. "Was it big & green and came flying out of the sky?" And, that was it. Nothing more was ever said about the matter. Period. But, it happened & that's the only personal story I have to tell you of mine (& Rick's) from RAF Bentwaters.

Now, many years later in 1986 or 7 - I was a Border Patrol Agent in Eagle Pass, Texas & getting ready to report for work. I had the TV on & CNN Reports came out with this simply incredible story about a lot of airmen at Bentwaters & Woodbridge sighting UFOs!? I was floored. You see, I never heard that story the whole time I was there. It happened to my colleagues so close to me & no one ever said a word. It was simply amazing. I left Bentwaters in September of 1981.

Well, I hope that this story is of some value to you or Dr. Greer. The site that I'm creating for my former 81SPS buddies is still being created as I speak. I'll be sure to send you the URL after it's done.

regards -
