Subject: Disclosure already for me

Hello Dr.Steven Greer.my name is [REDACTED] and i'm a ufologist from the U.K. I was doing a T.V. documentary for Sky about seeing U.F.O.s thru night vision and N.A.S.A. cover ups when i was told of a lady who sees the same sort of craft i do but with her own eyes! She needed someone to go down to her house in Devon, South England to check that she was not going mad.I did and she is not!! I witness three craft in the grounds of her house with laser lights coming down from them and they were looking at her garden.They were there for about an hour,i have the evidence on tape along with other things that are happening at her home! I have seen lots thru my night vision equipment as well, She has E.T. D.N.A also from a creature that came into her home and we can get that too!! There is so much more but i can tell you if you give me a call on U.K. [REDACTED] Funny you gave this e-mail because i was trying to get hold of you anyway about my time with

her!! The craft left little holes all over her garden,she has 21 acres of land so they are not disturbed at all! The holes are at a 45 degree angle and go down about 5inches.We think they are taking up minerals from the soil and other things which then go back to the mother ship which came down on the Sunday!! By the way they take water out of her pond as well! You can hear the water being taken up into a smaller craft. Let me know if you would like to hear more! I have disclosure for sure.

Thank-you for your time and best wishes [REDACTED]....Twitter Account
