

BALMORAL CASTLE

1 October 1989

I am replying to your letter to the Queen about the Corn Circles Phenomenon since I have been taking a rather particular interest in the subject. We were both fascinated by your letter and tape and by the account of the "Encounter" at Cheesefoot Head.

You and your colleagues have discovered quite a lot about the circles, but they remain a mystery. I confess that I am delighted that they have not been explained. I think it is good for our scientific and pragmatic souls to discover that there are some things that are beyond our comprehension. I think we all need a bit of humbling in this 'know-all' age.

I think the great thing about these circles is that, unlike ghosts or flying saucers, which are only seen and reported by the fortunate few, these phenomena are THERE to be photographed and to be seen by whoever feels like going to have a look. They cannot be argued away by sceptical scientists !!

By all means go on studying them, but I dearly hope that the explanation will never be found !!

I have many happy memories of the carriage competitions at ~~xxxxxxxxxx~~

*Yours sincerely*
