[REDACTED]

Steve, since what he says is so extraordinary, I hope you can meet him in England.

This evaluation will be updated after I review the documents.

Preliminary Report on [REDACTED]

1.. Obtain full name, address, phone numbers, email and other data and record same

[REDACTED] Mobile phone (best way to reach him): [REDACTED] / land phone (doesn't usually work) [REDACTED]
[REDACTED] miles NE of London in Essex

2.. Obtain brief educational and employment history relevant to the testimony (ie, government, military, intel., corporate)

Worked as a security operator at the underground NSA facility at Peasemore, in Berkshire, England, from 1979-1981.
Before that, and since, he was/is a researcher. He was the subject of a genetic experiment himself, has a long involvement with this matter, and got the job at the facility in order to investigate the facility.

3.. Record the details in summary form of the witness' testimony, providing salient information on date, location, position and involvement at the time of the UFO/ET event or project

At [REDACTED], he saw (and touched!) Greys being bred and cross bred, under the direction of the NSA, under Project Mannequin. They are using them for military purposes, like slaves. He also witnessed mind control experiments. He has had involvement in this program from 1972 – 1988. Now provides inside information to intelligence sources, both in the US and Britain, in exchange for them giving him access to documents and for their protection. He is fedexing me hundreds of pages of documents.

4.. Ascertain the witness' degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases) ?

He is 100% cooperative. Will be interviewed on camera. Has already gone public with this.

5.. Ask if he/she has corroborating witnesses to the event or project or corroborating documents and other materials

There were 3 others who witnessed what he did who he says have been killed under suspicious circumstances. There is one left, also a witness to this, who is in hiding in Europe and moves around a lot. This person might be available to be interviewed under disguise. But [REDACTED] can't reach him, and only hears from him sporadically. He says there are other witnesses mentioned in the book "Cosmic Top Secret" by [REDACTED] (1998) – intelligence sources but names are not given. He has hundreds of documents which he is sending by fedex.

6.. Always ask if the witness has other evidence, networks, or contacts to other witnesses which could be useful to the project (they may not offer this and so this should always be asked).

See above in terms of his own contacts. Didn't discuss this because he had not seen the project materials when I called him and didn't know much about the project. I since sent him the material and will follow up on this aspect.

7.. Write your own assessment of the value of the witness' testimony and credibility, and HOW the witness comes across (articulate, etc) .

Still needs to be evaluated based on the documents and hopefully a meeting with SG in England. I plan to do another interview after I process the documents.

8. Let the witness know that we will be contacting him/her later to set up a date to conduct a full interview.

I emailed him that SG will be in England next week and may be contacting him for a meeting.
