## *'I Believe in Flying Saucers!'*

*By Air Chief Marshal Lord Dowding*

I say this that I am convinced that these objects do exist and that they are not manufactured by any nation on earth. I can therefore see no alternative to accepting the theory that they come from some extra-terrestrial source.

I say this because most of the incidents which the records have been checked by the Intelligence Branch of the United States Air Force. They endorse the accuracy of the evidence, but they put forward no explanation. The critics who deny the existence of these objects must produce some alternative theory which will account for the observed facts.

The accelerations which they develop in starting, changing course, and stopping would also make human life as we know it, impossible.

In a brief article I cannot deal at length with the suggestion that they are new types of aircraft under development by Russia or the U.S. They have been tracked on radar screens in America—on one occasion by three screens simultaneously—and the observed speeds have been as great as 9,000 miles an hour.

No earthly materials that we know of could be forced through the air at such a speed without getting too hot to allow human
