

My name is Steven Michael Digna, Jr.

The following testimony is as true and accurate as it can be at this time and to the best of my ability and I am prepared to swear to this testimony under oath before the Senate and to Congress.

- **I am a former Sargent in the United States Army.**
- **I began active duty in 1999 and served until 2002.**
- **I was assigned to US Army Training center (W4J9AA) Fort Irwin, California, located in the Mojave Desert inside Death Valley near Barstow in April 2000.**
- **I was in “A” company operations group –Live fire combat Engineer Davison/Computer systems Support management.**
- **I Acted As The Hub Between The Operations Group intelligence Planners Ground Team Air Force And Star Wars Program.**

In July of 2001, while observing the live fire practice, at eye level from an observation deck at approximately 3 stories high from desert floor

- **I saw a craft in the distance at approximately 200 ft off the ground, measuring 172' across, strongly resembling a hovering B_2 Spirit.**
- **Upon first glance my eyes were adjusting to the darkness, but I could see 7 lights in a “V” shape.**
- **After that i closed my eyes for approximately 30s and allowed them to adjust to the light conditions. We were running red lights throughout the bunker, due to the current Live Fire Exercise, which was interrupted by the "lights above the range" call.**

Once my eyes adjusted, I could make out the general shape of the craft. There were 2 men from Raytheon present. I pulled out my night vision goggles to get a better look at the craft. It appeared to be generating 7 lights along its wings and underbelly. I Then Noticed Another Smaller Craft Oriented on the right side and at the same height as The First Craft approximately, 75 to 100 yards to the right.

- The 2nd Craft Was Jet Black V Shaped Pointed towards the First Craft.
- This craft had equally joined spaced rectangular sections forming the hull.
- The craft had a gimbal or rack that deployed from the bottom of the Craft, approximately with 5 to 6 holographic emitting lights that were pointed directly at the First Craft.

One of the 2 men On the observation deck from Raytheon Noticed the night vision goggles I had. He Went From Chatting cheerfully to an angry look of disapproval towards me. At that point they both went inside calmly yet angry as though I crossed a line. I took another quick look with the night vision goggles.

The Reason the event Was Not Reported Up The Chain Is Due To The Fact That This Was Not Unidentified. It was Ours And Was in Fact Apart Of My Recruitment into The Programs.

I Was The Fastest soldier Promoted in 25years on Post, And The Youngest #1 control seat holder at the NTC Facility in history. the Promotions Were Not At All Normal For A non Deployable Post.

Approximately 5-7days later The Following Incident Took Place on Fort Irwin Road during a weekend pass after being shown the craft at the live fire bunker.

I was driving with my wife, coming back from the movies. We left early and were going fast along Ft. Irwin Rd.

- We passed a dry lake bed on the right**
- my driver side mirror reflected a powerful white light into my eyes.**
- I saw a bright white light pop out of the canyon.**
- I looked over my left shoulder and saw the light zipping through the curve mimicking exactly what I had done.**

All I could see was bright white through all the windows and at the same exact time the car's power and engine died completely.

- When I exited the vehicle I rushed toward the front end, believing there was someone pointing flood lights at us.**

- I stepped threw a thick white field of plasma that encompassed a spheroid craft.
- As I Turned to go inspect the craft my wife opened the door and ran towards the front of the Car yelling. She was instantaneously locked in place in a bright white plasma field.
- As I looked at her I thought to myself, “Its ok she is in stasis lock” and I heard a female voice calmly state, “She is in stasis lock.”

Relieved that she was safe, I started approaching the craft for further inspection. The craft and the car were nose to nose at 90 degrees forming an L shape.

- There was a plasma field emanating approximately 12” around the craft.
- The craft seemed about 23 ft. long.
- I stepped forward with my left hand extended slightly reaching out to it.
- The craft responded by moving back and pivoting the nose away from my hand like a cat or a boxer avoiding head shots.

- The exterior looked like polished black onyx. As I touched the craft, I noticed ambient temperature not hot or cold.
- As I swiped my hand up the craft's starboard front side it was smooth as glass, however when I drew my hand back towards me it felt like shark skin or a cat's tongue.
- The reaction followed my hand and it simultaneous made a purring sound like a tiger or panther. Then it revealed another layer under the outer skin that was extremely thin and was like a honeycomb lattice.

I turned, looked up and saw in the starry sky an enormous curved ripple like seeing a heat foil mirage on the road. I realized the curved ripple was an enormous cloaked ship. I heard a calm female voice state, “ Uh Oh, you were not supposed to see that.”

I Saw a Massive Hanger bay Door Emitting a Bright Rectangular Hole in the sky floating in the middle of what Seemed Like The open sky

In The Bottom Right corner of the Bay door was a Silhouette of a Human Female.

The second I heard the Concerned Phrase, I began Feeling And hearing A very Subtle Thud Thud Thud Thud. It grew More intense and the Thud Increased In Frequency I could Feel The thud pulsing so rapidly I thought I was going to disintegrate or explode. The Thud and its Frequency increased and I felt myself being lifted off the Ground My Car was Also Being Lifted I tried to look up. I could See landscape underneath the Craft In Detail as Clear as Day.

I Woke up and came To And was in The hanger bay.

My wife Was on A table Next to Me . She was not able to move.

Our Car was across the hanger Bay with People in White Biohazard or Hazmat Suits with face Masks and Air Filters working on the front passenger side Quarter Panel.

I noticed a female doctor next to me. She was aware that I was still conscious and aware of her presence and she was extremely uncomfortable because I was so coherent and upset - even though I could not move my body- only my eyes.

The Bay Door was behind the medical personnel and I could See the Stars and The Desert Floor was all black. Then I recall very clearly

coming to. My wife and I both clicked back into consciousness and were staring at each other. We both gave each other a strange look like, “ What were we just doing?” and we realized we were back driving on Irwin road. It felt like we just left the movie. We didn’t remember anything. We Went Home and both of us Blacked out until the next morning I think we Just Didn’t have a memory of it at the time It wasn’t long Before I recalled Everything except seeing the Enormous craft or being aboard it.

Soon The Rotation Schedule Kicked back in (911 happened and I was given Special Orders to report to the personnel Office. I received orders to Shape headquarters Belgium I was Informed my clearance was bumped to TS- level 4 With a presidential stamp. I was also On Standby Need to Know Status on my Orders to report to the 39th Signal Battalion Shape. I was deployed to Belgium in April 2002 and stationed at Chievres AFB a top secret base.
