Sighting Report

Occurred : 9/12/1990 19:00 (Entered as : 9/12/1990 19:00)

Reported: 3/26/2006 12:50:57 PM 12:50

Posted: 5/15/2006

Location: Cairo (Desert Storm) (Egypt),

Shape: Disk,

Duration: 35 minutes

This sighting took place in 1990 over in the middle east during Desert Storm.

This sighting took place in 1990 over in the middle east. At that time I was in the military the US AirForce we were dispatched to Egypt prior to the start up of desert storm to build a fueling base in the desert along with a large MASH unit. While at the site we would start working at dawn and many times would not finish up to well after dark.

The first 30 days we were in country we were house at a large hotel complex in Cairo Egypt. Not sure of the date but one evening after we had finished work we all were waiting on the tarmac for our buses to takes us back to Cairo it was about 72 Degr and a very clear night. There was approx 70 of use including our commander.

Shortly after we all gathered to wait for the buses one of the guys pointed to the south east and said what is that well we turned around and looked up. I have never seen anything this until at that moment. There were approx 100 objects pale orange in color that were at a very high altitude in two V formations one next to the other looked like a W in the sky. These objects moved very slowly from the south east to the northwest.

As they approached our location you could drop a pin and hear it hit the sand not a single person was making a sound. Once they got over head at a high altitude they changed course in unison to the north. We watched them for about 30 to 35 minutes.

I looked over and saw our commander looking up at the objects and asked him what he thought they were. He said I have no idea.

To this day I have not been able to determine what the objects were. I did go to base ops the next day to see if their may have been a large military flyover. NO traffic was in the air that night The Egyptian military do not fly at night and no commercial traffic was in the area.

I submitted this report some years ago to MUFON but have never heard anything back from them or if they received it.

I am now retired from the Air Force and this incident still bugs me I would like to know what they were. By the way being in the middle of the desert there were no external lights other than a bldg light that was on about 500 yards away.
