>The book's author, [REDACTED], has chosen to concentrate on police

>For this reason, many officers appear to have waited until they have

>contacted the researchers feel so strongly about what they have
>witnessed that they are prepared to be named.

>

>The reported encounters include:

>

>- An officer who claims to have been abducted and medically
>examined by aliens in the 1980s. The former officer, who has yet to
>give the full details of his case, is said to have been out driving when
>he experienced disturbances to his vehicle followed by memory loss.
>He later recalled, via hypnosis, being taken aboard a space craft and
>examined by aliens.

>

>- A police officer says he took five photographs of a UFO while on
>duty in the West Midlands in the 1980s, but that the MoD
>confiscated them.

>

>- A policeman and woman were out on patrol in the countryside and
>saw lights and a cylindrical object in the sky.

>

>- An officer who saw a disc shaped object hovering 20ft above the
>road.

>

>- A police officer who, in the 1970s while on duty, saw a
>wedge-shaped object in the sky that was about four storeys high and
>50ft long.

>

>- Declassified MoD papers from the 1950s to the 1970s that report
>investigations into reported sightings by police officers and incidents
>at military bases. The files name police officers involved and
>allegedly include accounts of helicopters being sent after UFOs.

>

>There have also been several reports from officers in Sussex - one as
>recently as last month - an area which is considered a fruitful zone
>for UFO sightings.

>

>While the majority of the police officers who have been in contact
>are retired, some are serving and include an Inspector.

>

>Ms Bott said: "In a court of law the person who is most believed is
>usually a policeman. Also, these people are out day and night
>observing things around them so they are excellent witnesses.

>

>"A UFO is simply an unidentified flying object, it's not little green
>men.

>

>"Many officers do not want to talk about it openly while they are still
>serving because they can kiss their promotion chances goodbye."

>

>So far she has been in touch with about 20 serving and former
>officers - two serving officers contacted her a couple of weeks ago

>and claim to have seen UFOs in the past month.

>

>Nick Redfern, an author of several books on UFOs, who is assisting
>[REDACTED] with her project, added: "These people are willing to fly in
>the face of potential ridicule, which shows how strongly they feel
>about what they have witnessed - these are strong, credible
>witnesses."

>

>One of those to come forward was former Pc [REDACTED]. His
>encounter with a UFO took place on the evening of 14 June 1995.

>

>[REDACTED], 52, who retired from the West Midlands police force in
>1994, after 27 years service, was at his home near Redditch,
>Worcestershire, when he looked out of his bedroom window.

>

>"I saw a silver pear-shaped ball of light hovering over a tree," he
>recalled. "It was about 40ft off the ground, and about 20ft long and
>5ft wide.

>

>"Immediately opposite was a red cigar-shaped object, about 30ft tall.

>

>"The pear ball suddenly moved and there was a piece cut out of it
>like a wedge of cheese. It then changed into the shape of a jelly bean
>and jumped onto the cigar shaped object. The two objects then fused
>together, produced a rippling light and were gone."

>

>He said the whole episode lasted about five minutes and took place
>at 10.35pm, and that a similar sighting took place 20 miles away on
>the same night.

>

>"I am not talking about flying saucers or space men, but an
>unidentified object - some form of energy source," he added.
