Meredith Gardner

22 Oct 1991

Mr G. again referred to Langhorne's book page 84 on the value to G. of the ~~Best~~ ~~codebook~~ Petsamo codebook. Said G. "I could have done everything w/o it."

G. noted some political changes in the KGB codebook. The entry for Germany under 'G' was changed to 'N' at which place was found an old derivative Russian word for German that literally means "Those who don't know how to talk."

ROSENBERG Case

G. rec'd a written report from military intelligence that identified "Antenna" as Julius Rosenberg. He cannot recall exact sequence, but assumes the report came back in response to MI seeing an early Antenna

translation and doing some digging. This
report may have directly reached R.
