Dear Readers:

As you may know, I am a card carrying member of the Amalgamated Flying Saucers Association. Therefore, like many other people in our country I am interested in the phenomenon of flying saucers.

It is a fascinating subject that has initiated both scientific fiction fantasies and serious scientific research.

I watch with great interest all reports of unidentified flying objects, and I hope that some day we will know more about this intriguing subject.

Dr. Harlow Shapley, the prominent astronomer, has stated that there is a probability that there is other life in the universe.

I favor more research regarding this matter, and I hope that once and for all we can determine the true facts about flying saucers. Your magazine can stimulate much of the investigation and inquiry into this phenomenon through the publication of news and discussion material. This can be of great help in paving the way to a knowledge of one of the fascinating subjects of our contemporary world.

Sincerely,

Robert F. Kennedy
