Subject: mars symposium in DC

To the insiders list:

This from P Moore who runs a group dealing with the straight
and
sober-sided conservative aspects of seti-science (Carl Sagan, Dan
Goldin,
etc,etc.....) --- check it out, go it you are in DC area.

Announcing a Mars Symposium

(Second Announcement)

LIFE IN THE UNIVERSE
WHAT IS THE MESSAGE FROM MARTIAN FOSSILS?

November 22, 1996

The Space Policy Institute of George Washington University's
Elliott School of International Affairs, in cooperation with The
Planetary Society and the National Space Society, is organizing
on November 22, 1996 a major symposium discussing the cultural,

intellectual, theological, and policy implications of the recent announcement of evidence of long-ago life on Mars and the public's reactions to those findings.

Reacting to the August 7 announcement, President Clinton asked Vice President Gore to convene a "space summit on the future of America's space program." The "Life in the Universe" symposium will provide a way for the public to express its views on the appropriate government response to the Mars findings prior to the White House summit.

The all-day symposium will be held at the Dorothy Betts Marvin Theatre located at 800 21st Street, NW on the campus of The George Washington University. Admission is free: however, advance registration is required.

Funding for the symposium is being provided by the sponsors and the District of Columbia Space Grant Consortium.

REGISTRATION IN ADVANCE IS REQUIRED

To register, please provide the following information:

- 1) Name
- 2) Organization
- 3) Phone
- 4) Fax
- 5) Email address

via:

email: marssymp@gwis2.circ.gwu.edu

OR

fax: (202) 994-1639

OR

mail: Space Policy Institute
George Washington University
2013 G Street, NW, Suite 201
Washington, DC 20052

PRELIMINARY AGENDA

9:00-9:15 Opening Remarks

9:15-9:45 What Did We Find?

team Briefing by Kathie L. Thomas-Keprta, ALH84001

9:45-10:15 How Will We Know the Findings are Valid?

From the perspective of a working scientist -
John Grotzinger, Department of Earth,
Atmosphere and Planetary Sciences, MIT

From the perspective of a philosopher of science - Peter Caws, University Professor of Philosophy, GW

10:15-10:30 Break

10:30-11:45 Alien Life in Fiction and Fact

- Alien life in science fiction - Kim Stanley Robinson, author, Red Mars, Green Mars, and Blue Mars

- Humanity's long-time fascination with extraterrestrial life - Steven Dick, Naval Observatory, author, The Biological Universe

11:45-12:15 Critical Factors in New Space Endeavors

Bruce Murray, Vice-President, The Planetary Society

12:15-1:30 Lunch Break

1:15-2:30 Putting the Findings in Broad Perspective

Panel composed of:

Father John Minogue, President, DePaul University

Abdel-Monem Al-Mashat, Cultural & Education Attache, Embassy of Egypt

John Noble Wilford, The New York Times (Invited)

Molly McCauley, economist, Resources for the Future

Richard Berendzen, astrophysicist, American University

2:30-3:00 International Interest and Response

Roald Sagdeev, University of Maryland, former Director, Space Research Institute, Moscow

3:00-3:15 Break

3:15-4:30 What Response? Public Interest Perspectives

Robert Zubrin, Chair, Executive Committee, National Space Society

Louis Friedman, Executive Director, The Planetary Society

Results of an Internet Survey - Space Policy Institute

Other views

4:30-5:00

Next Steps: Reflecting the Public Interest

NASA Administrator Dan Goldin
