

10/28/03 - EXTREMELY GOOD
ILLUSTRATIONS - MINOR CORRECTIONS ONLY NEEDED.

Dear [REDACTED]

10/24/03

How are you? Please give me your thoughts on these preliminary test preview illustrations (shown without the windows yet). [REDACTED] do you remember [REDACTED]'s middle name?

Thanks

I DON'T THINK I
REMEMBER HAROLD'S MIDDLE NAME AT ALL - IF HE EVEN HAD ONE

VERTICAL STABILIZER STILL TOO SQUARE -
TAKE CURVE AT BASE WHERE IT BEGINS SLOPING UP TO
"S" IN US AND THEN CURVE CONTINUING STREAM LINED CURVE
TO BACK OF FIN.

NEEDS 3 WINDOWS CURVED ~~OB~~ BLOW RECTANGULAR
NOSE OF COCKPIT GOES DOWN TO FUSILAGE
YOUR IN FLIGHT DEPICTION
AT SAME ANGLE AS DEPICTED WINDOW.

AIR INTAKES ARE
IS VERY NEARLY LIKE ONE OF ACTUAL PHOTOS I SAW.
NOT OFFSET ANY AT ALL. EXACT PARALLEL,
PHOTO IN FRONT OF HANGER WOULD BE BETTER
ALL ALUMINUM - NOT MULTI-EDGED
AS YOU HAVE IT. (OVER)

VERY SERIOUSLY - IF YOU WOULD PUT ^{THE} SAME EFFORT INTO ILLUSTRATING
APPROX 40' SINGLE PILOT VERSION YOU WILL, IN MY HONEST OPINION,
ACHIEVE ABOUT 110% MORE INTEREST AND 150% MORE POSITIVE
INQUIRY/ANSWERS. PLUS 1000% MORE CHANCE TO GET AN ACTUAL OFFICIAL PHOTO!

YOU SIMPLY HAVE FOCUSED YOUR ATTENTION ON THE WRONG
VERSION OF THOSE JET DISC AIRCRAFT, !! AND - STILL DO !!

~~ABSOLUTELY NO DOUBT - NO QUESTION ABOUT IT - IF YOU~~
MAKE EXACT SAME TYPE ILLUSTRATIONS ON THAT APPROX 40'
AIRCRAFT YOU WILL GET ATTENTION YOU PROBABLY DIDN'T THINK POSSIBLE!
FOR REAL!

AND - THAT 40' VERSION IS THE ONE TYPE SEEN
MOSTLY WHEN SPOTTED - THEY BUILT MORE OF
THEM, I FEEL CERTAIN, THAN ANY OF THE OTHERS. REMEMBER,
~~AND DON'T FORGET - THE O.I.C. AT TAMPA SPECIFICALLY STATED IT WAS~~
~~IN THE ORIGINAL AIRCRAFT FLIGHT WHEN FIRST SEEN AND REPORTED - AND THE~~
~~AIR FORCE STILL HAD ONE OF ITS TYPE - (THE ACTUAL AIRCRAFT) AT TAMPA AND~~
~~I KICKED ITS TIRES!~~ MIKE, HOW MANY TIMES SHOULD I KEEP INSISTING
THAT YOU ARE FOCUSING ON THE WRONG DISC AIRCRAFT! - AND
WHY DO YOU THINK I KEEP INSISTING?? I SAW THESE AIRCRAFT IN PERSON,
YOU DIDN'T! OK?
