██████ — FOR "AUTHENTICATION" IN YOUR WRITTEN STORY, IF YOU CARE TO USE IT.

A RUNWAY FOR U.S. FIRST SPACESHIP FACILITY WAS BUILT AT HUNTER ARMY AIR FORCE BASE, SAVANNAH, GEORGIA FROM SIMILAR SECRET GERMAN RUNWAY CAPTURED BY GEN PATTON NEAR THE END OF WWII AS MENTIONED WRITTEN BY HIM IN AT LEAST ONE OF HIS BIOGRAPHS. THIS RUNWAY IS PROBABLY WHY THE BASE AT SAVANNAH WAS NEVER CLOSED AS SCHEDULED, (NOW A USAF BASE)

(I PERSONALLY VISITED THIS RUNWAY AND WAS BRIEFED BY O.I.C. THERE AT THE TIME.

BOTH BRITISH AND RUSSIAN AIRCRAFT CARRIER FLIGHT DECKS WERE REDESIGNED WITH SIMILAR SKI SLOPE UPWARD CURVE WHICH ENABLED LAUNCHING LARGER AIRCRAFT WITH HEAVIER LOADS. WE DID NOT CHANGE OURS.

END OF RUNWAY IN SAVANNAH - 5 MILES AWAY FROM WHERE I WAS, WAS STILL 'OFF LIMITS' AND I.O.C. STATED THAT EVEN HE, HAD NOT YET, AT THAT TIME, BEEN ALLOWED TO GO TO THE END OF THAT RUNWAY. CONSTRUCTION WAS NEARING COMPLETION WHEN I WAS THERE.) (PATTON MENTIONED CURVE AT END)
