

18 JULY 02 - MEMO TO

BECAUSE I'VE SEEN MOST OF THOSE
HISTORY CHANNEL TV PROGRAMS I DON'T
WATCH ALL OF THEIR CURRENT REPLAYS.

THEY HAD ONE ON STRATEGIC AIR COMMAND
AIRCRAFT INCLUDING B-36 - AT ROSWELL,
EVEN THOUGH I HAD WATCHED THEM LAND
AND TAKE OFF DURING TIME THEY WERE
THERE, I HAD FORGOTTEN ABOUT THEIR
LANDING GEAR. MAIN LANDING GEAR
HAD DOUBLE ROW OF WHEELS AS SEEN ON
TV PROGRAM.

VIEW

SIDE VIEW

← MAIN LANDING GEAR

SO, SEEING IT AGAIN SORT OF JOLTED

MY MEMORY THAT THE 108' FLYING WING DISC

PARKED AT MALDILL HAD THEM ALSO ON FRONT.

FRONT

FRONT LANDING GEAR

REMEMBER I
MENTIONED THAT
THE FRONT HAD

MORE WHEELS THAN I HAD EVER SEEN ON ONE
LANDING GEAR BEFORE. LATER OF COURSE, OUR GIANT
TRANSPORT AIRCRAFT USED MULTIPLE WHEELS WHICH
HAD MANY, MANY WHEELS FRONT AND MAIN GEAR.

YOU SHOULD BE ABLE TO
FIND PHOTOS OF AFTER AND BEFORE
