MEMORANDUM REPORT to Commanding Officer, Air Transport Squadron ONE

Subj: Report of Unusual Sighting on Flight 125/9 February 1951

At 0055Z on 10 February 1951, while serving as second Plane Commander on above flight, I was an eye witness to an unusual sighting of an unidentified object. This occurrence took place at approximately 49-50 N. and 50-03 W, which is approximately 200 miles north east of Argentia, Newfoundland. We were at 10,000 feet altitude cruising on a true course of about 230° at time of incident.

At time of sighting I was occupying the right hand (CoPilots) seat and the left hand (Pilots) seat was occupied by Lieutenant G. E. BETHUNE.

My attention was first called to the occurrence by Mr. BETHUNE, who asked me to look at an unusual light which was to my right. I then saw that there was a glowing light beneath a thin layer of strato-form clouds beneath us. This light was to my right and down at an angle of about 45°. This object appeared to lie on the surface and was throwing a yellowish-orange glare through the cloud deck. It appeared to be very large and I at first thought that it could be a large ship completely illuminated.

Mr. BETHUNE and I watched the object for several minutes in trying to determine its nature. We then called our Navigator, Lieutenant N. J. P. KUGER to the cockpit to scrutinize the object and render his opinion as to its nature.

While further observing the object I saw that it suddenly started ascending through the cloud layer and it then became quite bright. The object was very large and was circular with a glowing yellow-orange ring around its outer edge. This object appeared to be climbing and moving at a tremendous speed, and it appeared to be on a more or less collision course with our aircraft. When it appeared that there was a possibility of collision the object appeared to make a 180° turn and disappeared over the horizon at a terrific speed. During the course of events LTJG A. L. JONES had come to the cockpit and he made a turn in the direction of the object but it went out of sight in a short period of time.

Due to the fact that this object was seen over water at night it would be most difficult for me to estimate speed, size or distance we were from it during the course of events. However, the speed was tremendous and the size was at least 200 to 300 feet in diameter. The object was close enough to me to see and observe it clearly.

UNCLASSIFIED

Upon request, I will attempt to submit a more detailed and complete report of my observations.

Upon arrival at NAS, Argentina, I was contacted by Capt. D. H. PAULSEN, USAF, who interrogated me relative to the subject.
