The U.S. CIA/OSI
Admitted having a
9 February 1956 "U.S. UFO
Program."

MEMORANDUM FOR THE RECORD

SUBJECT : Responsibility for "Unidentified Flying Objects"

ASD (short form)

REFERENCE: 1. AD/OSI Memorandum for the Record, 9 January 1956,
"Office Responsibilities for Non-Conventional
Types of Air Vehicles"

2. Special Report #14, Analysis of Reports of
Unidentified Aerial Objects (Project Blue Book)
by ATIC, dated 5 May 1955

(Most likely destroyed by ASD as a Raw
unevaluated report. They didn't want pictures of
Interplanetary vehicles getting out
in the
50's -
not in
the
90's?)

1. In accordance with Reference 1, this Division has
assumed responsibility within OSI for Non-Conventional Types of
Air Vehicles.

2. This Division proposes to handle this responsibility
in the following manner:

a. Files will be maintained in ASD on incoming raw
reports where, in our judgement, the subject matter may provide
information bearing on foreign weapons' system research or
development.

b. Those reports which fit under a. above and also could
conceivably provide information on foreign fundamental
science developments, will be forwarded to Fundamental
Sciences Area for review with a request for return to ASD
for filing. Q) ASD = Air Science Development?

c. Those reports which do not fit a. above and which
could conceivably provide information on foreign fundamental
science developments will be forwarded to the (Fundamental
Science Area) for retention or destruction.

d. Reports which fit under none of the above will be
destroyed. Claims of Benevolent E.T. Communication etc.??

e. A chronological file of all OSI correspondence and
action taken in connection with the (United States U.F.O.)
program will be maintained in ASD.

f. A file of finished intelligence reports published by
members of the United States intelligence community on
U.F.O. will be maintained in ASD.

Hidden from us all
these years.

Scientific Intelligence

Division Admits

U.S. UFO

Program

As of (1956.)

II. C.I.A.
UFO.
Files exist.

III. They could
conceivably
contain some Alien
E.T. advanced
scientific
developments.
"Alien" would be
very foreign,
and very
interesting to all.

IV. There exists
a U.S.
U.F.O.
Program!

V. The time seems
right for
greater public
knowledge about our U.S. UFO
Program.

VI. Do we have the right
to know more about
the U.S. U.F.O. Program
or not?

VII. If not, what is its classification and why can't some of the information come out?

SUBJECT: Responsibility for "Unidentified Flying Objects"

3. The procedure stated in 2 a., b., c., and d. will prevent the accumulation of reports which experience and Reference 2 have shown cannot be analyzed in a manner useful to OSI in carrying out its mission.

4. It has been recommended that the raw intelligence and the obsolete finished reports on U.F.O. now filed in Electronics Division be destroyed.
