Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

DATE: January 31, 1949

FROM : SAC, SAN ANTONIO

SUBJECT: PROTECTION OF VITAL INSTALLATIONS
BUREAU FILE # 65-50300

At recent Weekly Intelligence Conferences of G-2, ONI, OSI, and F.B.I., in the Fourth Army Area, Officers of G-2, Fourth Army have discussed the matter of "Unidentified Aircraft" or "Unidentified Aerial Phenomena" otherwise known as "Flying Discs", "Flying Saucers", and "Balls of Fire". This matter is considered top secret by Intelligence Officers of both the Army and the Air Forces.

It is well known that there have been during the past two years reports from the various parts of the country of the sighting of unidentified aerial objects which have been called in newspaper parlance "flying discs" and "flying saucers". The first such sightings were reported from Sweden, and it was thought that the objects, the nature of which was unknown, might have originated in Russia.

In July 1948 an unidentified aircraft was "seen" by an Eastern Airlines Pilot and Co-Pilot and one or more passengers of the Eastern Airlines plane over Montgomery, Alabama. This aircraft was reported to be of an unconventional type without wings and resembled generally a "rocket ship" of the type depicted in comic strips. It was reported to have had windows; to have been larger than the Eastern Airlines plane, and to have been traveling at an estimated speed of 2700 miles an hour. It appeared out of a thunder-head ahead of the Eastern Airlines plane and immediately disappeared in another cloud narrowly missing a collision with the Eastern Airlines plane. No sound or air disturbance was noted in connection with this appearance.

During the past two months various sightings of unexplained phenomena have been reported in the vicinity of the A.E.C. Installation at Los Alamos, New Mexico, where these phenomena now appear to be concentrated. During December 1948 on the 5th, 6th, 7th, 8th, 11th, 13, 14th, 20th and 25th sightings of unexplained phenomena were made near Los Alamos by Special Agents of the Office of Special Investigation; Airline Pilots; Military Pilots, Los Alamos Security Inspectors, and private citizens. On January 6, 1949, another similar object was sighted in the same area.

 a Meteorologist of some note, has been generally in charge of the observations near Los Alamos, attempting to learn characteristics of the unexplained phenomena.

Up to this time little concrete information has been obtained.
