

EXHIBIT C

Statement of Rep. Wolf in Congressional Record--1960

This exhibit includes a statement that Rep. Leonard G. Wolf placed in the Congressional Record, August 31, 1960 (p. 18955). He called for a congressional inquiry, and cited the names of numerous military officers who agreed.

NICAP UFO Report

EXTENSION OF REMARKS
OF

HON. LEONARD G. WOLF

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, August 31, 1960

Mr. WOLF. Mr. Speaker, under leave to extend my remarks, I include an urgent warning by Vice Adm. R. H. Hillenkoetter, former Director of the Central Intelligence Agency, that certain potential dangers are linked with unidentified flying objects—UFO's. Admiral Hillenkoetter's request that Congress inform the public as to the facts is endorsed by more than 200 pilots, rocket, aviation, and radar experts, astronomers, military veterans, and other technically trained members of the National Investigations Committee on Aerial Phenomena. Among them are Rear Adm. H. B. Knowles; Col. Joseph Bryan III, U.S. Air Force Reserve; Lt. Col. Jas. McAshan, USAF; Lt. Col. Samuel Freeman, U.S. Army Reserve, Aviation; Mr. J. B. Hartranft, president, Aircraft Owners Pilots Association; Capt. R. B. McLaughlin, Navy missile expert; Mr. Frank Rawlinson, physicist, National Aeronautical and Space Agency; Dr. Leslie Kaeburn, space consultant, University of Southern California; former Air Force Maj. William D. Leet, with three officially reported UFO encounters while an Air Force pilot; Frank Halstead, 23 years as curator, Darling Observatory; Rear Adm. D. S. Fahrney, former chief of the Navy missile program; Col. R. B. Emerson, U.S. Army Reserve, head of Emerson Testing Laboratories; Prof. Charles A. Maney, astrophysicist, DePaul University; Capt. W. B. Nash, Pan American Airways.

The "NICAP Report on Secrecy Dangers," with documented evidence on UFO's, was first submitted confidentially to me, and to several other Members of Congress, including Senator Lyndon Johnson. In a reply to NICAP, July 6, 1960, Senator Johnson stated that he had ordered the staff of the Senate Preparedness Investigating Subcommittee to keep close watch on UFO developments and to report on any recent significant sightings and the Air Force investigations of such sightings.

Although I have not had time for a detailed study, I believe the conclusions of these experienced NICAP officials should be given careful consideration. Certainly their sober evaluations should be completely dissociated from the obvious frauds and delusions about UFO's which unfortunately have been pub-

licized. The NICAP report is stated to be the result of a 3-year investigation—its conclusions based only on verified visual, radar, and photographic evidence by trained, reputable observers.

On August 20, 1960, NICAP sent me the following statement to be added to the original report:

There is a growing danger that UFO's may be mistaken for Soviet missiles or jet aircraft, accidentally causing war. Several Air Defense scrambles and alerts already have occurred when defense radarmen mistook UFO formations for possible enemy machines. NICAP agrees with this sober warning by Gen. L. M. Chassin, NATO coordinator of Allied Air Services:

"It is of first importance to confirm these objects . . . the business of governments to take a hand, if only to avoid the danger of global tragedy. If we persist in refusing to recognize the existence of these UFO's we will end up, one fine day, by mistaking them for the guided missiles of an enemy—and the worst will be upon us."

Today, this danger may surpass the one cited in NICAP's report: That the U.S.S.R. might spread false rumors that the UFO's are secret Red devices which have mapped all the U.S. and allied targets and could be used as surprise-attack weapons. (Some Americans already suspect hidden fear of UFO's as the reason for secrecy.)

We are sure you will agree it is imperative to end the risk of accidental war from defense forces' confusion over UFO's. All defense personnel, not merely top-level groups, should be told that the UFO's are real and should be trained to distinguish them—by their characteristic speeds and maneuvers—from conventional planes and missiles. This is not in effect today.

Second, the American people must be convinced, by documented facts, that the UFO's could not be Soviet machines.

Certainly every Member of Congress will agree that any such danger of accidental war—even if slight—must be averted in every possible way. It is also important to prevent any unfounded fear that the UFO's are secret enemy devices.

After discussing the subject with colleagues, I am certain that there is real concern by many Members of Congress. Without necessarily accepting all the conclusions of the NICAP Board of Governors and technical advisers, we are convinced that a thorough study of the UFO problem should be made. Pending such action, I believe that publication of the NICAP report will help to reduce the dangers cited by Vice Admiral Hillenkoetter and the other NICAP officials.

For those Members desiring to do so the previously mentioned confidential report can be obtained upon request at the National Investigation Committee on Aerial Phenomena, 1336 Connecticut Avenue NW., Washington, D.C.
