Subject: Re: Dr. Greer's New Call for Witnesses - Evidence

Hi Dr. Greer,

I am a experienter/whistleblower who entered the public arena in 2008-2009. I have a book in work that is in the final stages of editing before publication - It is called "Facing the Shadow, Embracing the Light".

I went through some terrible MILAB type of experiences peripheral to ET technology while in the USAF. I was a autotrack radar operator - autotrack radar is surface-to-air missile/anti-aircraft artillery radar. My story is out there and I am considered very down to earth and credible by most people within the UFO field, to my knowledge.

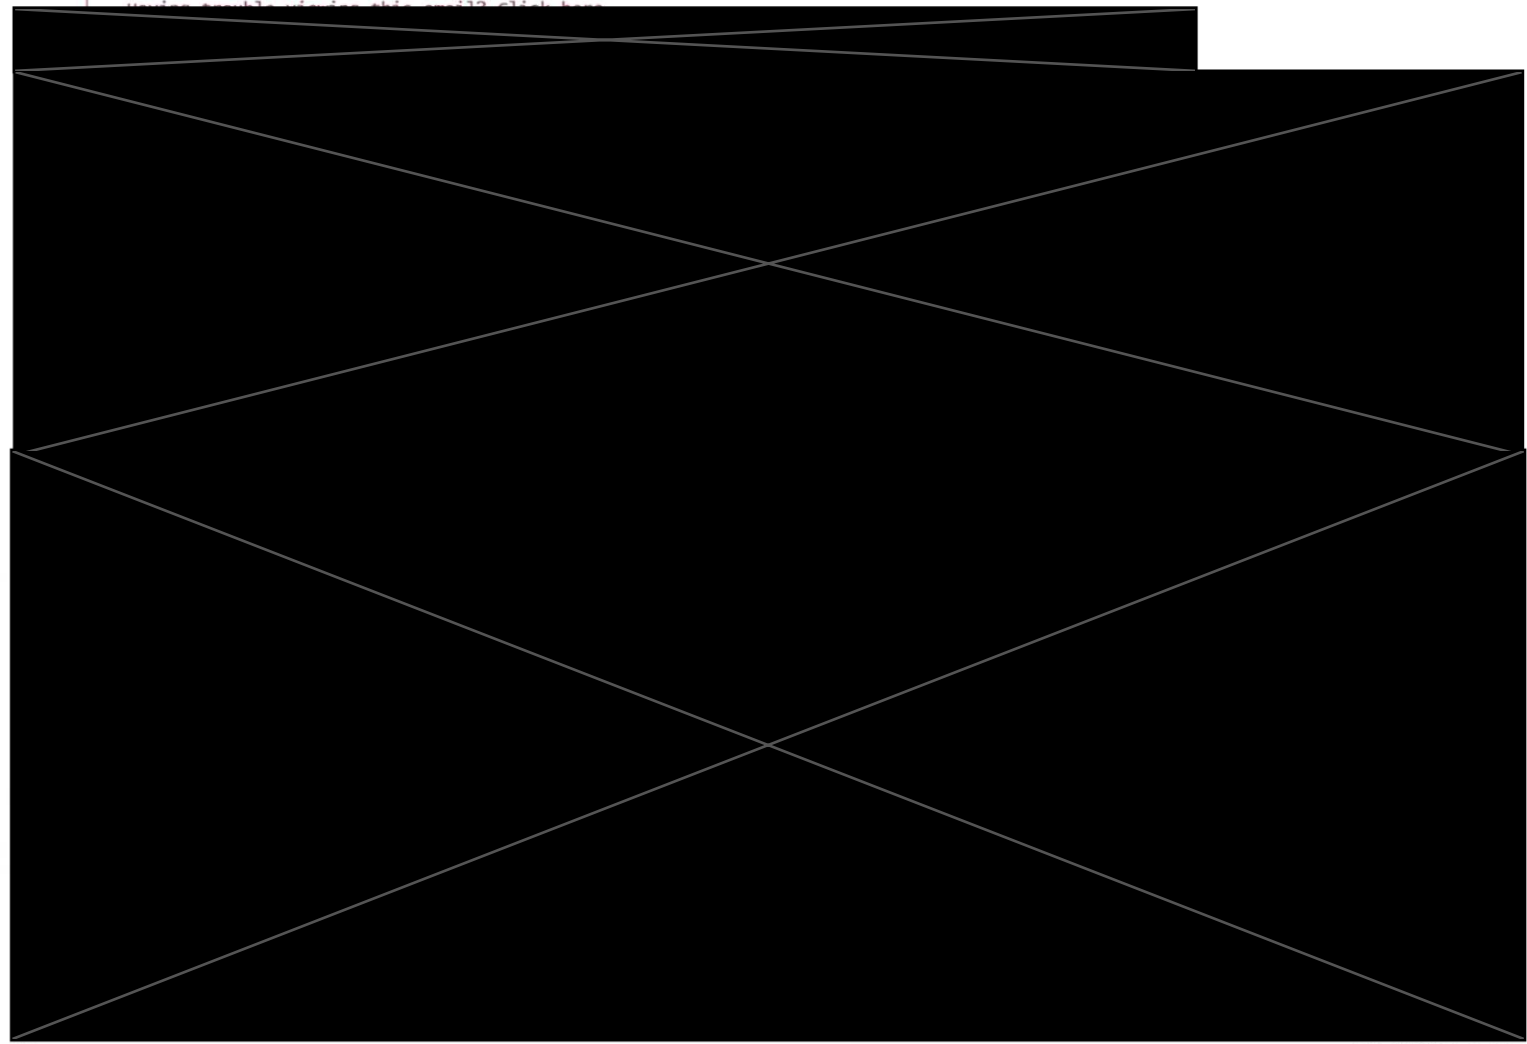

I have spent 15+ years researching to understand what happened to me and in what political and social context such experiences could even happen, so I am well educated on this topic. I am also a deeply spiritual person, always have been, and my path of direct spiritual experiences and spiritual practice have given me what I like to think of as an uplifting, positive, productive view of the extraterrestrial phenomenon.

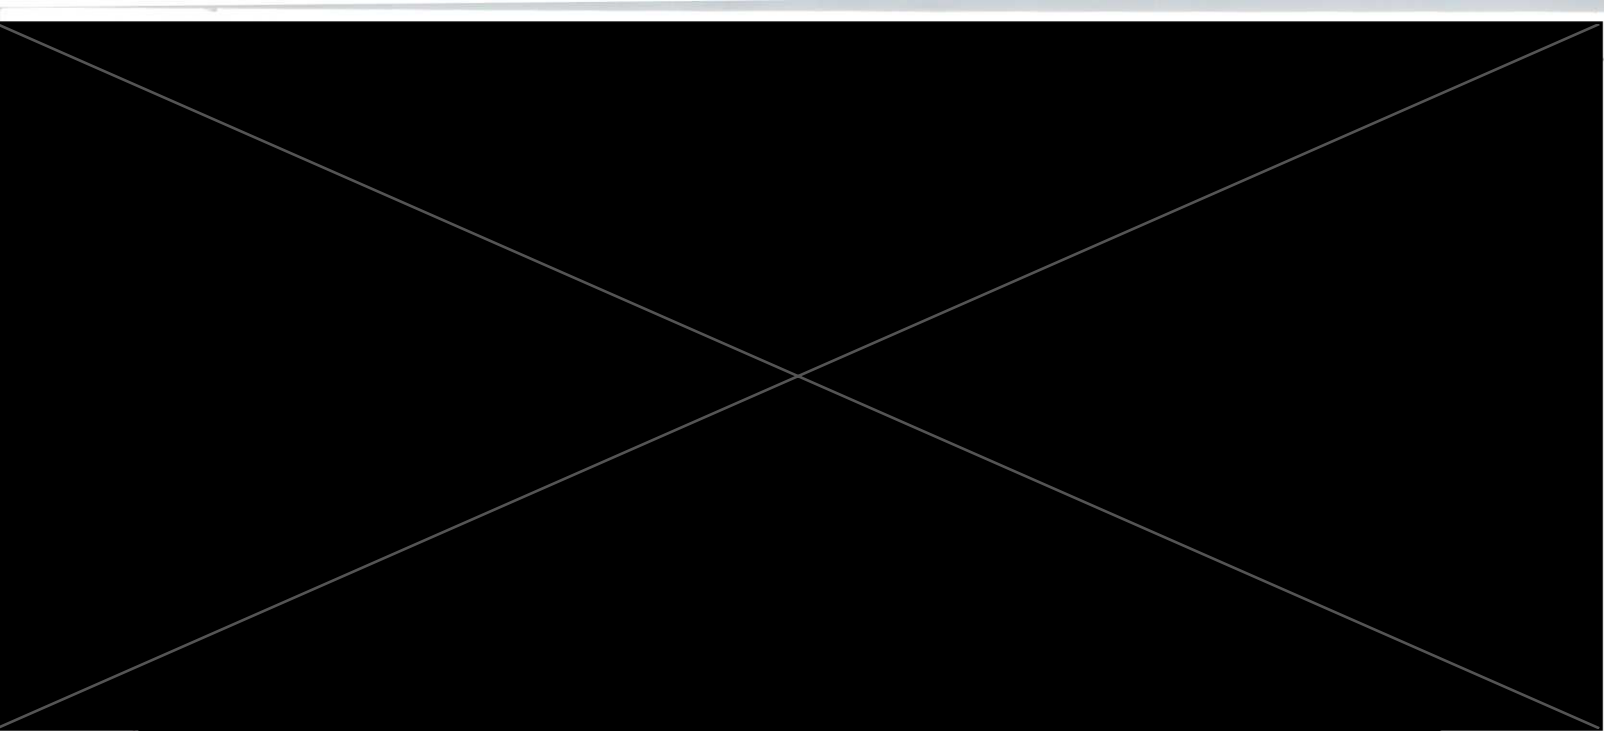

I would be glad to join in this new Disclosure venture if you would like to have me on board.

Thank you,

[redacted]
