

TRANSLATION OF "LA LETTRE" , the letter, No 5 MAY - JUNE 2008

THIS IS PAGE ONE (front page)

Only the lines marked in yellow are translated

The 3AF and the UFOs (PAN is the abbreviation for NON IDENTIFIED AERIAL PHENOMENA).

On the whole planet, informations on UFOs are now multiplying . Luminous points in the night, moving alone or in groups, moving objects saucer shaped, cigar shaped, all able to demonstrate accelerations beyond our present technology , far beyond .

.....
.....

France is the only country where the scientific study and the gathering of informations has been granted since 1977 to an official and civil organization named the "Cnes" , (National Center for Aerospace Studies) and through it, the GEPAN (the Study Group for UFOs) . The informations sources come from the police, sheriffs in the villages, civil aviation, the Air Force and the Weather bureau . In 2005, the GEPAN becomes the G.E.I.P.A.N. meaning informational for the public ,(with the letter I).

.....
.....

The 3AF representing a well-informed association in the area of aeronautics, space and defence is naturally very concerned with aerial phenomena, or UFOs; it intends to answer in the most impartial and objective manner to as yet unanswered questions . It is in this context that we have decided to create the "3AF-PAN" commission. Around Alain BOUDIER (Air Force Intelligence Officer, active in the area of communications and journalism) a team has been made with specialists such as Pierre BESCOND, Jean-Francois CLERVOY, Khoa DANG-TRAN, Paul KUENTZ-MANN and Xavier PASCO and somme others as investigations will required .

TRANSLATION OF PAGE 6 (lines marked in yellow)

Jean KISLING's testimony

Mr. Jean KISLING, 86 years old, a former fighter pilot, chief pilot at AIR FRANCE, accumulated 27000 hours of flying.

.....

His testimony concerns an attempt to intercept ufos in 1945.

.....

..... left Morocco for the USA.

His qualifications as a talented pilot were recognized there and he was promoted to the position of instructor in the Army Air Force at AFB Selfridge, Michigan , the very same place where he was involved in a dogfight against ufos during the Summer of 1945 .

.....

.....

This attempt of interception was made with a P-47 N, the most powerful fighter plane of that period . The engine developed in 1945 nearly 3000 h.p. abling it to reach altitudes above 33000 feet .

.....

.....

At the request of the commanding officer of the AFB Selfridge and in the absence of other candidates, who had in mind previous regrettable accidents in the recent past, KISLING volunteered for an intercept and took off in urgency .

.....

.....

As he reached near 55000 feet and despite the difficulty of flight at this altitude and the cold, he succeeded in firing a long salvo to the ufos from his 8 canons of 12.7 mm caliber .
(KISLING SAYS) : " To my geat surprise, these balloons, as a result, changed their shapes and looked then like flying saucers, and they flew away at a terrific speed, leaving behind similar smoke trails to those of

our conventional jet planes .

On the ground, the dog-fight was observed with great interest by more than a 1000 witnesses (some of them using instruments of optics, binoculars of high power, etc.)

.....

.....

"After landing on the AFB, I was greeted as a hero by the colonel in command of the base . The debriefing report was sent to the Pentagon. Then, there was no RETEX from the authorities on this incident .".

.....

.....

"In 1952 or 1953, on a stop-over at NEW YORK/ILDLWILD, we were informed by the airport director that our Superconstellation will be under a very special scrutiny by a military escort of armed guards spread along the "tarmac". The Director explains to us (myself and my co-pilot) that we are to take aboard a U.S. delegation of about ten people . They are waiting at the very end of the landing strip and they will be the only passengers to fly with us. And, in fact, I noticed that the escort observes carefully the arrival of these passengers making sure that no indiscreet look may observe the presence of these delegates.

Our flight to Paris at that time took about 12 hours and I decided after a while to walk to the rear of the aircraft and relax there . I sat there with the group of delegates next to a man in his 60s. Curiously, the conversation went rapidly on the ufo subject and I recalled my experience with the event at SELFRIDGE .

The person with whom I was conversing said that the delegation he was heading would take an other flight from Paris-Orly to the East of Europe in order to discuss between other subjects, about this highly sensitive subject with their soviet counterparts. (KISLING adds :)

"The U.S. delegate also tells me that his colleagues know perfectly well who I am." The delegate mentions that there is at the Pentagon a department dedicated to the study of Flying discs and he reveals that they have, a few years before 1952, recovered a flying saucer which crashed near El PASO (Texas) with all of the E.T.s dead .

To my question : "Why don't you inform the U.S. citizens ?"

TRANSLATION OF "LA LETTRE" No 5 MAY - JUNE 2008 PAGE 7

He answered that it was impossible to reveal the truth, because this would result into a general panic all over the planet .

.....

.....

More than 63 years after these events, what is the feeling concerning the phenomena ?

KISLING answers :

"As far as I am concerned, I do not have the slightest doubt that flying saucers exist and that they come from an other solar system. I am extremely surprised to realize that so-called great scientists still refuse to admit the idea of the existence of an intelligence somewhere in the cosmos. Facing this challenge, I consider that we (humans) have not progressed from the Galilee period".
